

List of Contents

Subjects	<u>Page</u>
Part I: Introduction & Aim of the work.....	1
Part II: Review of literature.....	5
- Corticosteroids:	
- Preparations	5
- Mechanism of action	6
- Complications	8
- Steroid sparing Immunosuppression protocols	24
-Tacrolimus	33
- Introduction	33
-Mechanism of action	34
-Adverse events related to Calcineurin inhibitors	36
-Combined therapy with MMF	38
-Corticosteroid withdrawal under Tacrolimus therapy	40
-Mycophenolate Mofetil (MMF)	
-MMF as dose-sparing agent for steroids	41
-MMF in combination with Tacrolimus	42
-Anti T cell antibodies	44
-Polyclonal antibodies	44
-Monoclonal antibodies	45
-Role of the anti-interleukin 2 receptor antibodies in steroid free regimen	47
-Factors affecting graft survival	50
Part III: Patients and methods.....	58
Part IV: Results.....	69
Part V: Discussion.....	108
Part VI: Summary and conclusion.....	124
Part VII: References.....	126
Part VIII: Arabic Summary	

List of Tables

	<u>Page</u>
Table (1): Demography and base line characteristics.....	
a) Clinical data	69
b) Donor/Recipient data	70
c) Surgical aspects	71
d) Laboratory profile	72
Table (2) :	
a) Mean Tacrolimus (FK 506) level (ng/ml) at different follow up in both groups	73
b) Mean Tacrolimus (FK 506) dosage (mg/day) at different follow up in both groups	73
Table (3) : Graft function in both groups at different follow up periods.....	
a) Serum creatinine (mg/dl)	75
b) Calculated GFR (ml/min)	75
c) Hematology	
C-I Hemoglobin (gm/dl)	77
C-II White cell count ($10^9/L$)	77
C-III Platelet count ($10^9/L$)	78
d) Biochemistry	
D-I Calcium	79
D-II Posphorus (mg/dl)	79
D-III Uric acid (mg/dl)	80
e) Liver function tests	
e-I) Serum Bilirubin (mg/dl)	81
e-II) SGPT (U/L)	81
e-III) SGOT (U/L)	82
f) Lipid profile	
f-I) Serum cholesterol (mg/dl)	83
