

Green, H.M. (1961):

Neurological sequelae of spinal analgesia.
Anaesthesiology, 22 : 682.

Green, B.A.A. (1950):

A 26 gauge lumbar needle, it is value in prophylaxis of headache following spinal anaesthesia for vaginal delivery.
Anaesthesiology, 11 : 464.

Hasan Aziz, M.B., Jhon, A., Pearce, M.D., Miller, B.Sc.
(1968):

Vaso pressin in prevention of lumbar puncture headache.
Brit. J. Anaesth., 4 : 677.

Hart, J.R., Whitacre, R.J. (1951):

Pencil point needle in prevention of post-spinal headache.
J. amer. med. ass., 147 : 657.

Hayman, I.R., and Wood, P.M.: (1942):

Abducent nerve paralysis following spinal anaesthesia.
Ann. Surgery, 115 : 864.

Richard, J., William, F., Andrew, G. (1966):

Atropine and vasopressor for the treatment of hypotension.
Anaesth. Analg., 45 : 621.

Lund, P.C. (1968): The complications of subdural analgesia.
Can. Ana. Soc. J., 15 : N₂.

- Moore, R.D., and Bridenbough, D.L. (1966):
Spinal block: review of 11,574 Cases.
J. amer. med. ass., 195 : 907.
- Nicholas, M., Green, M.D. (1961):
Treatment of acute myelopathy and chronic
arachnoiditis due to spinal analgesia.
Anaesthesiology, 22 : 682.
- Pickering, G.W. (1968):
Lumbar puncture headache.
Brain, 71 : 274.
- Payre, J.B., and Bergentz, S.E. (1956):
Paralysis following spinal anaesthesia.
Lancet, I : 666.
- Robert, D., Dripps, M.D. (1960):
Long term follow-up of patients who received
10,098 spinal anaesthetic for neurological
disease incidence to traumatic lumbar puncture
during spinal anaesthesia.
J. amer. med. ass., 172 : 1483.
- Sikh, S.S. and Arwal, G.A. (1974):
Incidence of post spinal headache and its
proper management.
Anaesthesia, 29 : 297.
- Seigne, T.D. (1970): Post-spinal aseptic meningitis.
Anaesthesia, 25 : 402.
-

Thorsen, G. (1947):

Neurological complications after spinal anaesthesia and result from 2,495 follow-up cases.
Acta. Chir. scanda, 95 supp., 121 : 1.

Walton, M.D. (1953):

Traumatic complications of spinal anaesthesia.
Neurology, 3 : 517-543.

William, F., Bauzarth, M.D. and Poul Gutterman, M.D. (1968):

Traumatic complications of spinal analgesia.
J. amer. med. ass., 205:886.
