FIGURES OF REVIEW

Figure NO.	Title	Page No.
1	Embyology of V.S.D.	6
2	Embryology of V.S.D.	7
3	Embryology of V.S.D.	8
4	(MPI) Tei index	37
5	MPI	38
6	MPI	38

FIGURES OF RESULTS

Figure NO.	Title	Page No.
I	Shows the correlation between Tei index, and E.F in patients with VSD and without pulmonary hypertension.	55
II	Shows the correlation between Tei index, and E/A in patients with VSD and without pulmonary hypertension.	56
III	Shows the correlation between Tei index, and E.F in patients with VSD and pulmonary hypertension.	57
IV	Shows the correlation between Tei index, and E/A in patients with VSD and pulmonary hypertension.	58

TABLES OF RESULTS

Tables NO.	Title	Page No.
Table (1)	The mean \pm standard deviation (SD) of ages among the studied groups.	48
Table (2)	The mean \pm standard deviation (SD) of weight and length among the studied groups.	48
Table (3)	The clinical data among G1 and G2 patients	49
Table (4)	Mean \pm SD of Tei index value in patients of G1 with different ages.	50
Table (5)	Mean \pm SD of Tei index value in patients of G2 with different ages.	50
Table (6)	Shows mean Tei value in control cases with different ages.	51
Table (7)	The statistical comparison between G1 and (control) G3 as regard echo measurements.	51
Table (8)	The statistical comparison between G2 and (control) G3 as regard echo measurements.	52
Table (9)	The statistical comparison between G1 and G2 as regard echo measurements.	53
Table (10)	Mean Tei index value in the studied groups	53
Table (11)	The correlation between Tei index,(E/A) and Ejection fraction (E.F) in (G1).	54
Table (12)	The correlation between Tei index, (E/A) and Ejection fraction (E.F) in (G2).	54
Table (13)	The statistical comparison of the Tei index value in G1 and (control) G3 as regarding to a- value and b- value.	59
Table (14)	The comparison of the Tei Index in patients of G2 and (control) G3 regarding to a and b-value.	60
Table (15)	The statistical comparison of the Tei Index in patients of G1 and G2 regarding to a and b value.	61
Table (16)	The correlation between Tei index and echo measurements in patients of (G1).	61
Table (17)	The correlation between Tei index and echo measurements in patients of (G2).	62
