

CONTENT

<i>Subject</i>	<i>Page No.</i>
Introduction	1-2
Aim of the work	3
Chapter I: Physiology Of Reproduction	
- Physiology of reproduction	
- Gamete production	4-10
- Sperm oocyte interaction	
<i>Acrosome and vitelline coate</i>	10-11
<i>Fertilization</i>	11-13
<i>Formation and fusion of the pronuclei</i>	14
<i>Cleavage</i>	14-20
Chapter II: Assisted Reproductive Technology (ART)	
- Evolution	21-22
- Indication Of ART	22-25
- Types of ART	25-27
- Technique	27-41
- Assisted hatching	41-45
Chapter III: Factors Affecting Outcome Of IVF Treatment	
- Patient characteristic and its effect	
Ages	46-48
Ovarian reserve	48-60
Causes of infertility	61-64

Duration of infertility	64
History of previous pregnancy	64-65
Obesity	65-67
Smoking	68
Ethnicity	69
- Clinical characteristic and its effect	
<i>Stimulation protocol</i>	69-75
<i>Patient monitoring</i>	75-80
<i>Embryo transfer technique</i>	
<i>Number of embryo transfer</i>	80-88
<i>Embryo cryopreservation</i>	88-91
- Preimplantation genetic diagnosis	92-94
- Endometrial receptivity	94-95
Chapter V: Complications and Ethics	
- Complications of Assisted Reproductive Pregnancies	96-104
- Ethics and Assisted Reproduction In Egypt	105-109
Summary	110-114
References	115-143
Arabic Summary	

LIST OF ABBREVIATION

CC	Clomiphene citrate
HCG	Human chorionic gonadotropin
GnRH	Gonadotropine releasing hormone
CHO	Chinese hamster ovary
ART	Assisted reproductive technologies.
COH	Controlled ovarian hyperstimulation
PCO	Polycystic ovary disease.
DES	Diethylstil bsterol
IVF	In vitro fertilization
GIFT	Gamete intra fallopian transfer
ZIFT	Zygote intra fallopian transfer
ICI	Intra cytoplamic sperm injection
PZD	Partial zona dissection
SUZI	Subzonal insertion
MESA	Microsurgical epididymal sperm aspiration.
FSH	Follicular stimulating hormone
CD	Cycle day
bFSH	Basal serum FSH
LH	Luteinizing hormone
E ₂	Estradiol
bE ₂	Basal estradiol
CCCT	Clomiphene citrate challenge test.
AFC	Antral follicle count
COS	Controlled ovarian stimulation
ASRM	American society for reproductive medicine
SART	Society for assisted reproductive technology
PR	Pregnancy rates
HFEA	Human fertilization and embryology authority
HMG	Human menopusal gonadotropin
EP	Ectopic pregnancy

LIST OF FIGURES

Figure No.	Title	Page No.
Fig. (1)	Human oocyte from a larg Graafian follicle	6
Fig. (2)	Diagram of a human spermatozoon	10
Fig. (3)	These Events occur mainly in the fallopian tube	19
Fig. (4)	Transabdominal –transversical ultrasound directed oocyte recovery	34
Fig. (5)	Transabdaminal-perurethral ultrasound directed oocyte recovery	35
Fig. (6)	Transabdominal-tranavaginal ultrasound directed oocyte recovery	35
Fig. (7)	Transvaginal follicular aspiration under vaginal ultrasound guidance	38
Fig. (8)	Laparoscopic - Transvesical – Transvaginal	38
Fig. (9)	Enzyme (in pipette on right) dissolving zona pellucida	42
Fig. (10)	A human blastocyst (left side of picture) hatching from its shell (right side)	43

LIST Of TABLES

Figure No.	Title	Page No.
Table (1)	Relation between age and incidence of egg quality	46
Table (2)	Outcome of a second cycle after a pregnancy in the first IVF cycle.	65
Table (3)	The FSH starting dose in ovarian stimulation protocols in Monash IVF	76
Table (4)	Complication related to pregnancies after assisted reproduction	96
