Severe thrombocytopenia after generalized herpes simplex virus-2 (HSV-2) infection. *South. Med. J.* **71:** 864.

Wielaard, F.; Scherders, J.; Sabbe, L. J. and Van Belzen, C. (1988).

Development of an antibody capture IgM-enzyme linked immunosorbent assay for diagnosis of acute Epstein-Barr virus infections. *J. Virol. Meth.* **21 :** 105-115.

Wiersbitzky, S.; Schwartz, T. F.; Ladstatter, L.; Bruns, R.; Abel, E. and Deinhardt, F. (1991).

Blood findings in children with parvovirus B₁₉ infections. *Kinderarztl. Prax.* **59 :** 302-306.

Wiley, C. A.; Schrie, R. D.; Nelson, J. A.; Lampert, P. W. and Oldstone, M. B. A. (1987).

Cellular localization of human immunodeficiency. *J. Immunol.* **140:** 80.

William, E.; Mangano, M. D.; Robert, P. and Gruninger, M. D. (1996).

Use of viral cultures and serologic tests for cytomegalovirus infections. *Am. J. Clin. Pathol.* **106:** 180-184.

Wilson, J. J.; et al. (1988).

Infection-induced thrombocytopenia. *Semin. Thromb. Hemost.* 8: 217.

Wong-Stall, F. and Gallo, R. C. (1985).

The family of human T-lymphotropic leukemia viruses : HTLV-I as the cause of adult T-cell leukemia and HTLV-III as the cause of acquired immunodeficiency syndrome. *Blood* 65: 253.

Wong-Stall, F.; Chanda, P. K. and Ghayeb, J. (1987).

HIV, the eighth gene. *AIDS. Res. Hum. Retrovirus.* 3: 30-39.

Woodruff, J. F. and Woodruff, J. J. (1974).

Lymphocyte receptors for myxoviruses and paramyxoviruses. *J. Immunol.* 112: 2176.

Wright, S. C.; Jewett, A.; Milsuyasu, R. and Bonarida, B. (1988).

Spontaneous cytotoxicity and tumor necrosis factor production by peripheral blood monocytes from AIDS patients. *J. Immunol.* 141: 99.

Wybran, J. and Fundenberg, H. H. (1973).

Thymus-derived rosette-forming cells in various human disease states : Cancer, lymphoma, bacterial and viral infections, and other diseases. *J. Clin. Invest.* 52: 1026.

Wyde, P. R.; Peavy, D. L. and Cate, T. R. (1978).

Morphological and cytochemical characterization of cells infiltrating mouse lungs after influenza infection. *Infect. Immunol.* 21: 140.

Yeager, A. S.; Grumet, F. C.; Halfleigh, E. B.; Arvin, A. M.; Bradley, J. E. and Prober, G. (1981).

Prevention of transfusion-acquired cytomegalovirus infections in newborn infants. *J. Pediatr.* **98**:281-287.

Yefenef, E. (1978).

Epstein-Barr virus receptors, complement receptors and EBV infectibility of different lymphocyte fractions of human peripheral blood I and II. *Cell. Immunol* **35**: 34-43.

Yolken, R. H. and Leister, F. J. (1981).

Enzyme immunoassays for measurement of cytomegalovirus immunoglobulin M antibody. *J. Clin. Microbiol.* **14**: 4527-432.

Young, N. S.; Mortimer, P.P.; Moore, J. G. and Humphries, R. K. (1984).

Characterization of a virus that causes transient aplastic crisis. *J. Clin. Invest.* **73**: 224.

Zinkham, W. H.; Medearis, D. N. and Osborn J. E. (1967).

Blood and bone marrow findings in congenital rubella. *J. Pediatr.* **71**: 512.

Zon, L. J.; Arkin, C. and Groopman, J. E. (1987).

Hematologic manifestation of human immunodeficiency virus. *Br J Haematol.* **66**: 251.

Zon, L. I. and Groopman, J. E. (1988).

Hematologic manifestations of human immunodeficiency virus (HIV). *Semin Hematol* **25**: 208.

Zoumbos, N.; Raefsky, E. and Young, N. (1985).

Lymphokines and hematopoiesis. *Prog. Hematol.* **16**: 201.

Zucker-Franklin, D. and Cao, Y. (1989).

Megakaryocytes of human immunodeficiency virus positive individuals express viral RNA. *Proc. Natl. Acad. Sci. USA* **86**: 5595.

Zuppan, C. W.; Bui, H. D. and Grill, B. G. (1986).

Diffuse hepatic fibrosis in congenital cytomegalovirus infection. *J. Pediatr. Gastroenterol. Nutr.* **5**: 489-491.
