

Contents

<u>Chapter I</u>	: Introduction.	1
<u>Chapter II</u>	: Pathway and physiology of acute pain	5
<u>Chapter III</u>	: Postoperative pain management:	
	Pre-emptive analgesia	21
	Postoperative pain and signs of neuroplasticity	23
	Non-opioid adjuncts	24
	Narcotic analgesics	30
	Patient controlled analgesia	33
	Non pharmacological methods of postoperative Pain management	36
	Regional anaesthetic techniques	38
	Cytokines	48
<u>Chapter IV</u>	: Items of quality assurance program and Acute pain services	
	Education of physicians, nurses, and patients	54
	Systemic pain assessment	59
	Organized pain relief protocol	64
<u>Chapter V</u>	: Effects of analgesia on some biological analysis	
	Endocrine response	66
	Serum interleukin-6	68
	Metabolic responses	68
