INTRODUCTION -----	1
AIM OF THE WORK -----	3
REVIEW OF LITERATURE -----	4
I-PATHOPHYSIOLOGY OF PAIN -----	4
II- LABOR PAIN -----	8
A- Types and Causes of Labor Pain -----	8
B- Nerve Pathways And Labour Pain -----	9
C- Value Of Labour Pain Relief -----	11
D- Management Of Pain In Labour -----	14
i-PHARACOLOGICAL METHODS -----	15
1. Inhalational Analgesia -----	15
2. Systemic Opiod Analgesia -----	17
3. Spinal Analgesia -----	19
4. Epidural Analgesia -----	22
5. Combined Spinal Epidural Analgesia -----	28
6. Paracervical Block -----	30
7. Pudendal Block -----	32
ii- NON PHARMACOLOGICAL METHODS -----	33
1. Natural Childbith & Psychoprophylaxis -----	33
2. Transcutaneous Electrical Nerve Stimulation -----	38
3. Acupuncture -----	41
4. Support During Labour -----	43
5. Massage -----	46
6. Water Baths -----	47
Water Blocks -----	49
-----	56
-----	57
MATERIALS AND METHODS -----	59
<i>Procedure of sterile water injection :</i> -----	
<i>Statistical methods</i> -----	60
	72
RESULTS -----	78
DISCUSSION -----	81
SUMMARY & CONCLUSIONS -----
