Page

PART I :

BIOCHEMICAL ASPECTS OF PROSTAGLANDINS:

I. Historical View	1
II. Chemical Structure and Nomenclature	3
III. Biosynthesis	7
IV. Catabolism	11
V. Cellular Mechanism of PG Action ...	14
VI. Distribution, Levels and Release ...	21
VII. PG Inhibitors	25
VIII. Sources of Supply	30
IX. PG Assay	31

PART II :

PHYSIOLOGIC, PHARMACOLOGIC AND PATHO- LOGIC ASPECTS (IN THE VARIOUS BODY

SYSTEMS) PGs AND THE CIRCULATION:.....	34
PGs and the Respiratory System	47
PGs and the Digestive System.	66
PGs and the Urinary System ..	77
PGs and the Central Nervous System...	87
PGs with Muscles	91
PGs and the Endocrine System.	92
PGs and Metabolism	96

PGs and Inflammation	97
PGs and Milk	100
PGs and Skin Diseases	102
PGs and Immune Response ...	105
PGs and Cancer	107
PGs and the Eye	110
SUMMARY	111
REFERENCES	118
ARABIC SUMMARY	147
