INTRODUCTION	1
AIM OF THE WORK	2
- Methods	2
INTRODUCTION TO TACHYARRHYTHMIAS	3
A- Anatomy of the conduction system	3
B- Electrophysiology of Conduction	11
C- Normal Sinus Rhythm.	18
D- Haemodynamic Consequences of tachyarrhythmias	20
CLINICAL APPROACH TO TACHYARRHYTHMIAS .	
A- Supraventricular tachyarrhythmias ..	23
B- Ventricular tachyarrhythmias .	61
C- Preexcitation syndromes ..	80
DIAGNOSTIC APPROACH TO TACHYARRHYTHMIAS .	
A- A collective list of drugs	95
B- Drugs.	99
C- Electrical cardioversion ..	115
D- Pacing and tachyarrhythmias .	118
SUMMARY	124
