

CONTENTS

INTRODUCTION	1
REVIEW OF LITERATURE	3
CHAPTER 1 NEONATAL SEPSIS	3
I. DEFINITIONS	3
II. INCIDENCE	4
III. RISK FACTORS	5
IV. ROUTES OF INFECTION	13
V. CAUSATIVE ORGANISMS	15
VI. CLINICAL MANIFESTATIONS	22
VII. CATHETER RELATED INFECTIONS	22
CHAPTER 2 LABORATORY DIAGNOSIS OF NEONATAL SEPSIS	27
I. MICROBIOLOGICAL	27
II. HEMATOLOGICAL APPROACH	39
III. SEROLOGICAL DIAGNOSIS	40
IV. ACUTE PHASE REACTANTS AND ESR.	41
V. CHEMOKINES, CYTOKINES, ADHESION MOLECULES, AND COMPONENTS OF THE IMMUNE PATHWAY	44
VI. MOLECULAR TECHNIQUES	48
CHAPTER 3 INFECTION CONTROL	50
I. SURVILANCE	51
II. ORGANIZATION OF INFECTION CONTROL IN HOSPITALS	52
III. EVIDENCE BASED MEDICINE	52
IV. ISOLATION PRECAUTIONS	56
V. HAND HYGIENE	63
VI. ANTIBIOTIC POLICIES	81
VII. STERILIZATION	87
VIII. NICU DESIGN	99
IX. CATHETER CARE	100
X. WORK LOAD AND STUFFING	108
XI. OTHER ASPECTS	109
SUBJECTS, MATERIALS AND METHODS	111

SUBJECTS	113
I. SUBJECT DATA COLLECTION	113
II. INVESTIGATIONS	115
METHODS	118
STAGES I & III	118
I. SPECIMEN COLLECTION	118
II. CONVENTIONAL BLOOD CULTURE AND BACTERIAL IDENTIFICATION	119
III. ANTIBIOTIC SUSCEPTIBILITY	127
IV. CRP	130
STAGE II: STARTING INFECTION CONTROL PROGRAM	131
I. TRACING SOURCE OF INFECTION	131
II. DEFINING POLICIES	132
III. HEALTH EDUCATION	133
IV. SURVEILLANCE	135
RESULTS	136
DISCUSSION	156
SUMMARY & CONCLUSION	166
RECOMMENDATIONS	169
REFERENCES	170
APPENDIX I: GUIDELINES AND POLICES	218
APPENDIX II: Data of studied subjects	238
