INTRODUCTION AND AIM OF WORK.

BASIC PHYSIOLOGY OF SLEEP :

- * The Reticular Activating System.....1
- * The Thalamus and The Cerebral Cortex.....2
- * Brain Waves and Level of Brain Activity.....6
- * Types of Sleep : Slow Wave Sleep (NREM Sleep).....9
 - Paradoxical Sleep (REM Sleep).....10
- * Basic Theories of Sleep and Wakefulness.....11
- * Physiological Effects of Sleep.....16

NORMAL SLEEP PATTERN IN INFANCY AND CHILDHOOD :

- * Sleep Spindles.....18
- * K Complex.....19
- * Trace alternant.....24
- * Changing Sleep Wake Pattern from Infancy through Adolescence.....27
- * Duration of Sleep.....30
- * Factors Affecting Sleep.....32

PHYSIOLOGICAL CONSEQUENCES OF SLEEP

- * Growth Hormone.....34
- * Prolactin.....38
- * Cortisol.....40
- * Some Possible Malformations of Normal Rhythms.....43

ABNORMAL SLEEP PATTERNS IN INFANCY AND CHILDHOOD

AND THEIR CAUSES.....45

RESPIRATORY RELATED SLEEP DISORDERS :

- * Current Concepts of Respiratory Regulation.....53
- * Ventilatory Responses during Sleep.....54
- * Spontaneous Respiratory Changes during Sleep.....56
- * Apnea during Sleep.....58
- * Central Sleep Apnea.....60
- * Obstructive Sleep Apnea.....61
- * Pickwickian Syndrome.....64
- * Chronic Obstructive Pulmonary Disease.....67
- * Sudden Infant Death Syndrome.....68
- * Near-miss Infants, Subsequent Siblings and Others.....75

NIGHT WAKING AND BEDTIME STRUGGLES.....83

INSOMNIA AND NIGHTMARES.....89

NARCOLEPSY.....93

HYPERSOMNIA.....97

DISORDERS OF AROUSAL :

- * Sleepwalking (Somnambulism).....100
- * Sleepwalking (Somniloquy).....100
- * Night Terrors (Pavor nocturnus).....100
- * Nocturnal Enuresis (Bedwetting).....105

SUMMARY.

REFERENCES.

ARABIC SUMMARY.

LIST OF FIGURES

	<u>Page</u>
1- The reticular formation of the human brain.....	1
2- Neuronal connections in the neocortex.....	3
3- Electrode placements and nomenclature.....	6
4- EEG waves of normal individuals.....	7
5- K-complexes and sleep spindles.....	19
6- Stage REM in 3 months old infant.....	20
7- Sleep onset in 3 months old infant.....	21
8- Stage I-2 in 3 months old infant.....	23
9- Stage 3-4 in 3 months old infant.....	23
10- Trace alternant.....	24
11- Transition to stage REM in infants.....	29
12- EEG of adults.....	29
13- Sleep associated changes in GH and Prolactin secretion.....	39
14- Development of circadian rhythm of serum cortisol levels.....	42
15- Active sleep in a premature infant.....	46
16- Paroxysmal pattern in an infant with encephalopathy.....	48
17- Sleep spindles in mental retardation.....	50
18- EEG in an infant with seizures.....	52
19- Schematic representation of the respiratory control system.....	53
