<u>Part I: Review of literature :</u>	
Anatomy:	
* The fine structure of gastric mucosa	1
* Musculature of the stomach	6
* Blood supply of the stomach	10
* Nerve supply of the stomach	16
Gastric functions:	
* Regulation of gastric secretion	26
* Gastrin	32
* Inhibition of gastric secretion	40
* Gastric emptying	44
* Measurement of gastric emptying	51
* Gastric motility and emptying in D.U. patients ..	56
Pathology of D.U.	62
Pathogenesis of D.U.	69
Vagotomy :	
* Effect of vagotomy	86
* Metabolic sequelae of vagotomy	109
* Complications of vagotomy	120
The Clinical manifestations of D.U.	128
Clinical tests of gastric function	131
Radiological diagnosis of D.U.	158
Upper gastro-Entestinal endoscopy	162
Aim of work	178
<u>Part II: MATERIALS AND METHODS :</u>	
Operative techniques	185
Endoscopy	193
Analysis of gastric juice for acidity	196
Determination of free acidity	199
Glucose determination in serum	201
Fat in stool	204
