Introduction & Aim of the Work

Review of Literature

## **1. Principle of Tissue Doppler**

- Introduction
- System operating principles and future of tissue Doppler imaging
- Colour coding TDI echo
- Normal Pattern of Myocardial Velocity
- Normal Pattern of Myocardial Velocity Gradient
- Roll of TDI Parameters in ischemic heart disease

## **2. Effect of Ischemia on Myocardium**

- Electrical Changes
- Mechanical Changes
- Biochemical Changes

## **3. Detection of myocardial Ischemia by echocardiography (Value & limitation)**

Patients and Methods
