- INTRODUCTION.....	1
- REVIEW OF LITERATURE.....	
* Normal structure of palms and soles....	2
* Keratinization and its disorders.....	7
* Classification.....	11
* The autosomal recessive forms.....	14
* Mal De Meleda.....	14
* Papillon-lefevre syndrome.....	18
* Richner-hanhart syndrome.....	21
* Keratosis circumscripta.....	23
* The autosomal dominant forms.....	26
* Tylosis "Thost-unna syndrome".....	26
* Howel-Evan's syndrome.....	29
* Greither's syndrome.....	30
* Mutilating keratoderma.....	31
* Striate keratoderma.....	32
* Punctate keratoderma.....	34
* Hyperkeratosis lenticularis perstans	36
* Epidermolytic palmoplantar keratoderma.....	37
* Hereditary painful callosities.....	39
* Darier's disease.....	40
* Acrokeratosis verruciformis of Hopf.	42
* Naegeli's syndrome.....	44
* Pachyonychia congenita.....	45
* The acquired forms.....	47
* Psoriasis.....	47
* Tylotic eczema.....	51
* Pityriasis rubra pilaris.....	55
* Tinea pedis.....	59
* Tinea manuum.....	61
* Palmar keratosis with internal malignancy...	62
* Keratoderma climactericum.....	64
* Arsenical keratosis.....	66
* Reiter's syndrome.....	67
* Lichen sclerosus et atrophicus.....	69
* Lichen planus.....	71
* Callosity.....	73
* Corns.....	75
* Plantar warts.....	76
* Lymphoedematous keratoderma.....	77
* Acrokerato-Elastoidosis.....	78
* Porokeratosis of mantoux.....	80
* Palmo-plantar syphilides.....	80
