
CONTENTS

Aim of the work	i
Summary	ii
General of introduction	v
Introduction	1
1- Anionic surface active agents.....	(4-13)
2- Nonionic surface active agents.....	(13-22)
3- Cationic surface active agents.....	(22-30)
4- Amphoteric surface active agents.....	(31-36)
Application of nonionic surfactants	(37-48)

Results and Discussion

Part (1)

Synthesis of some new heterocyclic compounds from palmitic acid	(49-72)
1- Synthesis of 3,1-benzoxazinone (2).....	52
2- Synthesis of quinazolinone (3).....	54
3- Synthesis of 3-aminoquinazolinone (7).....	58
4- Synthesis of quinazolinyl thiourea (13).....	61
5- Reactions with aliphatic and aromatic amine and malononitrile.....	65

Part (2)

Preparation of nonionic surface active agents from the synthesized compounds.	(72-83)
1- Surface active properties of nonionic surfactants.....	77
2-Biological activity.....	78

Figures

Materials and Methods	(84-90)
References	(91-110)
