	<u>Page</u>
INTRODUCTION.....	1
AIM OF WORK.....	3
REVIEW OF LITERATURE.....	4
TRITERPENOIDS.....	7
THE STUDIED <u>CONYZA</u> SPECIES.....	21
PLANT MATERIAL.....	23

EXPERIMENTAL

Phytochemical Screening.....	24
------------------------------	----

Chapter I : Investigation of the Triterpenoids.

and Related Substances.....	28
-----------------------------	----

I. Conyza dioscoridis :

1- Thin-Layer Chromatography	28
2- Column Chromatography of Aceton- Soluble Fraction	29
3- Identification of B-Amyrin Acetate...	31
4- Identification of Alcohol Fraction ...	36
Preparation of Acetyl Derivative.....	40
5- Identification of B-Amyrin.....	40
6- Identification of Sterol Fraction....	41
Reactive Layer Technique.....	45

II. Conyza aegyptiaca :

1- Preparation of Aceton-Soluble Fraction	
2- Detection of Triterpenoids, Alcohol, and Sterol Fraction.....	49
