

TABLE OF CONTENTS

I - Introduction and Aim of Work	I
II- Review of Literature:	
A- Diabetes Mellitus:	
Historical Introduction.....	1
Definition	1
Classification of Diabetes Mellitus.....	2
Epidemiology of Diabetes Mellitus.....	7
Etiology of Diabetes Mellitus.	8
Pathogenesis of IDDM	11
Pathophysiology.....	13
Clinical Presentation of Diabetes Mellitus.....	14
Clinical Course.....	14
Physical Examination of Diabetes Mellitus.....	17
Laboratory Investigations.....	18
Treatment of IDDM	19
Management	20
Complications of Diabetes Mellitus.....	26
Acute Effect (DKA)	26
Miscellaneous Complication of Therapy	30
Chronic Effect of Diabetes Mellitus.	31
Long Term Complications	32

Pathogenesis of Diabetic complications	32
Prevention of diabetic complications	39

B- Diabetic Nephropathy:

History	41
Definition	41
Renal Function in Diabetes Mellitus	41
Epidemiology	43
Evolution of diabetic nephropathy	44
Stages of diabetic nephropathy	44
Stage I	44
Stage II	49
Stage III	55
Stage IV	56
Stage V	57
Pathogenesis of diabetic nephropathy	57
Pathophysiology	61
Factors affecting progression of nephropathy	62
Glycemic Control	62
Albuminuria and Proteinuria	64
Hypertension	65
Diagnosis of diabetic nephropathy	71
Differential diagnosis	74
Complication and mortality	76
Prevention and treatment	78
Metabolic Control	78
Control of Arterial Pressure	80
Low Protein Diet	80
Renal Transplantation	84
Pancreatic-Renal Transplantation	84

II - Subjects and Methods.....	86
III – Results.....	92
IV – Discusion	127
V - Summary and Conclusion	144
VI – Recommendations	146
VII- Appendix	149
VIII -References	158
IX- Arabic Summary.....	1
