<i>PREFACE</i>	-i-
<i>CHAPTER 0: Introduction</i>	
§ 0.1 Fuzzy sets.	1
§ 0.2 Fuzzy topology.	5
§ 0.3 Fuzzy supratopological spaces.	12
§ 0.4 Fuzzy bitopological spaces.	14
§ 0.5 Fuzzy proximity spaces.	18
§ 0.6 On dimension theory.	20
<i>CHAPTER I: On fuzzy supratopological spaces.</i>	
§ 1-1 Fuzzy supra separation axioms.	24
§ 1-2 Strong (ultra) fuzzy supra separation axioms.	29
§ 1-3 Strong (ultra) fuzzy supra mappings.	37
§ 1-4 Fuzzy supratopological spaces induced by a fuzzy bitopological spaces.	43
<i>CHAPTER II: Strong (ultra) pairwise mappings and strong (ultra) pairwise separation axioms on fuzzy bitopological spaces.</i>	
§ 2.1 Strong (ultra) fuzzy pairwise mappings.	52
§ 2.2 New separation axioms on fuzzy bitopological spaces.	60
§ 2.3 Strong (ultra) pairwise separation axioms.	67

CHAPTER III: Compactness in fuzzy bitopological spaces.

§ 3.1 FS- Q_α - compact and FP- Q_α - compact.	82
§ 3.2 FP* - α - compactness in fuzzy bitopological spaces.	93
§ 3.3 FP*- Q_α - compactness in fuzzy bitopological spaces.	96
§ 3.4 FP*-compactness in fuzzy bitopological spaces.	100

CHAPTER IV: Fuzzy supra proximity spaces and fuzzy biproximity spaces.

§ 4.1 Fuzzy supra proximity spaces.	104
§ 4.2 Induced fuzzy and initial ordinary supra proximity spaces.	110
§ 4.3 Interrlation with fuzzy biproximity spaces.	115

CHAPTER V: Dimension theory of bitopological spaces.

§ 5.1 Large inductive dimension of a bitopological spaces.	120
§ 5.2 Covering dimension in terms of pairwise upper and pairwise lower zero sets.	124

<i>References</i>	130
