ACKNOWLEDGMENTS.....	I
ABSTRACT.....	III
TABLE OF CONTENTS.....	V
LIST OF FIGURES.....	VIII
LIST OF TABLES.....	XII

CHAPTER I.

INTRODUCTION.....	1
1.1. Crustal Movement (Earth's Deformation).....	2
1.2. Necessity of the Crustal Movement Studies.....	3
Earthquake Prediction.....	4
Geological-Geophysical Needs.....	4
Deformation of the Huge Engineering Constructions.....	5
Geodetic Control Network Deformation.....	5
1.3. Causes of Crustal Movement.....	5
1.3.1. Causes of Global and Regional Crustal Movement	5
Glacio-Isostatic Rebound.....	6
Active Earth Dynamics.....	6
Sea Floor Spreading.....	6
The Plate Tectonic Motion (Tectonic Movements).....	7
Earthquake and Volcanic Effects.....	7
Earth Rotation and Polar Motion.....	7
1.3.2. Causes of Local Crustal Movement.....	8
1.4. Types of Crustal Movement.....	8
1) Secular Crustal Movement.....	8
2) Periodic Crustal Movement.....	8
3) Episodic Crustal Movement.....	9
1.5. Previous Work.....	9
1.6. Scope and Aim of the Present Study.....	12

CHAPTER II.

TECTONIC SETTING OF RED SEA REGION.....	13
2.1. The Gulf of Aqaba.....	21
2.2. The Red Sea.....	22
2.2.1. Origin of the Red Sea.....	25
2.3. The Gulf of Aden.....	26
2.4. The Red Sea- Gulf of Aden Development.....	31
2.4.1. Initiation of Sea Floor Spreading.....	33
2.5. Seismotectonic Setting of the Red Sea- Gulf of Aden.....	35
2.6. The Afar Triple Junction.....	37

2.7. The East African Rift System.....	41
--	----

CHAPTER III.

SEISMICITY OF RED SEA REGION.....	43
3.1 Seismicity of Northern part of Red Sea (Egypt).....	43
3.2. Seismicity of Southern part of Red Sea.....	48
3.3. Seismicity of Yemen	51
3.3.1. Temporal variation of the seismicity.....	54
3.3.2. Depth distribution of the earthquakes.....	69
3.3.3. Focal mechanism.....	72
3.3.3.1. Regional mechanism.....	75
Southern Red Sea.....	77
East African Rift (EAR).....	77
Gulf of Aden.....	77
Sheba-Ridge.....	84
3.3.3.2. Local earthquake focal mechanism.....	84
Gulf of Aden-Afar rift mechanism.....	87
Southern Red Sea.....	88
3.3.4. Stress field.....	88

CHAPTER IV.

METHODS OF MONITORING RECENT CRUSTAL MOVEMENT.....	90
4.1. Geodetic Techniques for Monitoring Crustal Deformation.....	92
4.1.1.Continuos Crustal Movement Observation Techniques.....	92
Tiltmeters.....	94
Strainmeters.....	96
Tide-Gauge.....	98
4.1.2. Discontinuous Crustal Movement Observation Techniques.....	98
4.1.2.1. Photogrammetric Techniques.....	100
Remote Sensing.....	100
Aerial Photogrammetry.....	100
Terrestrial Photogrammetry.....	101
4.1.2.2. Extra-Terrestrial Geodetic Methods	
(Space-techniques).....	101
Very-Long Base line Interferometry (VLBI).....	103
Satellite-Laser Ranging (SLR).....	105
The Global Positioning System (GPS).....	105
. Parameters in GPS Survey.....	113
.GPS Observation Techniques.....	114
a) Static Surveying.....	114
b) Fast Static Surveying.....	114
c) Kinematic Surveying.....	115
d) Differential GPS.....	115

CHAPTER V	
APPLICATION OF GPS TECHNIQUE FOR MONITORING RECENT CRUSTAL MOVEMENT IN EGYPT AND YEMEN.....	116
5.1. Establishment of Regional GPS Network in Egypt and Yemen.....	116
5.2. GPS measurements	118
5.2.1. Field Equipment.....	122
5.2.2. Antenna Setup.....	122
5.2.3. Sessions.....	123
5.3. Post-Observation.....	123
5.4. Data Transfer.....	124
5.5. Final analysis of data.....	124
5.5.1. Adjustment of GPS data.....	125
5.5.2. Results of horizontal movements in Yemen	126
5.5.3. Results of vertical movements in Yemen	127
5.5.4. Results of horizontal and vertical movements in Egypt.....	129
5.5.5. Results of horizontal movements in Egypt and Yemen	133
 CHAPTER VI	
DISCUSSION AND CONCLUSIONS.....	135
Concluding remarks.....	145
 REFERENCES.....	150
 ARABIC SUMMARY.....	162
