ACKNOWLEDGMENTS.....	
LIST OF CONTENTS.....	
LIST OF FIGURES	
LIST OF TABLES.....	
LIST OF SYMBOLS.....	

CHAPTER I INTRODUCTION

1.1 Generals.....	1
1.2 Exploration History of October Field.....	1
1.3 October Field and Available Data.....	4
1.4 Aim of Work.....	4
1.5 Processing of Data and Methods of Study.....	7
1.5.1 Picking of Data.....	7
1.5.2 Preparation and Correction of Data.....	7
1.5.3 Evaluation Technique.....	

CHAPTER II GENERAL GEOLOGY

2.1 Introduction.....	18
2.2 Stratigraphy.....	18
2.2.1 Miocene.....	20
2.2.1.1 Gharandal Group (Miocene Clastics).....	20

<u>Subject.</u>	<u>Page.</u>
i- Nukhul Formation.....	22
ii- Rudeis Formation.....	22
ii.1 Mheiherrat Formation.....	23
ii.2 Hawara Formation.....	23
ii.3 Asl Formation.....	23
2.3 Tectonic Framework of the Gulf of Suez.....	25
2.3.1 The Structure Provinces of the Gulf of Suez.....	25
2.3.1.1 Ataqa Province.....	26
2.3.1.2 Gharib Province.....	26
2.3.1.3 Zeit Province.....	26
2.3.2 Main Fault Trends in the Gulf of Suez Rift.....	26
2.3.2.1 Clysmic Trend.....	26
2.3.2.2 Aqaba Trend.....	28
2.4 Petroleum Systems of the Gulf of Suez.....	28
2.4.1 Source Rocks.....	28
2.4.2 Overburden Rocks.....	29
2.4.3 Trap Styles.....	30
2.4.4 Reservoir Rocks.....	30
2.4.5 Seal Rocks.....	32

CHAPTER III

WELL LOGGING ANALYSIS

3.1 Introduction.....	33
3.2 Methodology.....	33
3.3 Preparation of Data.....	34
3.4 Environmental Corrections.....	34
3.4.1 Formation Temperature.....	35

<u>Subject.</u>	<u>Page.</u>
3.4.2 Correction of Fluid and Rock Resistivities.....	35
3.4.3 Bore Hole Diameter Corrections.....	36
3.4.4 Matrix Corrections.....	36
3.4.4.1 For Dolomite.....	37
3.4.4.2 For Sandstone.....	37
3.5 Well Log Calculations.....	37
3.5.1 Determination of Water Resistivity (R_w)	37
3.5.2 Shale Content Evaluation.....	38
3.5.2.1 Single Curve Methods.....	38
3.5.2.1.1 Neutron Log as A clay Indicator.....	38
3.5.2.1.2 Resistivity Log as A clay Indicator.....	39
3.5.2.1.3 Gamma Ray Log as A clay Indicator.....	39
3.5.2.2 Double Log Indicators.....	40
3.5.2.2.1 Neutron-Density Model.....	40
3.5.2.2.2 Neutron -Sonic Model.....	41
3.5.2.2.3 Density -Sonic Model.....	41
3.5.2.2.4 Porter Method.....	42
3.5.2.3 Normalization and Correction of Shale Volume.....	42
3.5.3 Total Porosity Determination.....	43
3.5.3.1 Density Log.....	43
3.5.3.2 Sonic Log.....	44
3.5.3.2.1 Wyllie's Model.....	44
3.5.3.2.2 Raymer-Hunt Transform.....	44
3.5.3.3 Neutron Log.....	45
3.5.3.4 Neutron-Density Combination.....	45
3.5.3.5 Gamma Ray-Sonic Combination.....	46

<u>Subject.</u>	<u>Page.</u>
3.5.4 Crossplots for Porosity and Shale Volume Determination.....	46
3.5.4.1 Neutron-Density Crossplot.....	46
3.5.4.2 Neutron-Sonic Crossplot.....	47
3.5.5 Correction of Porosity for Shaliness and Determination of Effective Porosity.....	47
3.5.5.1 Effective Porosity from Sonic Log.....	47
3.5.5.2 Effective Porosity from Density Log.....	48
3.5.5.3 Effective Porosity from Neutron Log.....	48
3.5.5.4 Effective Porosity from Neutron-Density Combination.....	48
3.5.6 Determination of Fluid Saturations.....	49
3.5.6.1 Gas Determination.....	50
3.5.6.1.1 Gas Detection Using Fluid Identification (FID) Plot.....	50
3.5.6.1.2 Gas Detection Using GR - ($\phi_N - \phi_D$) Plot.....	51
3.5.6.2 Water Saturation Determination.....	52
3.5.6.2.1 Water Saturation of Clean Formation.....	52
3.5.6.2.2 Water Saturation of Shaly Formation.....	53
3.5.6.2.2.1 Laminated Shale Model.....	53
3.5.6.2.2.2 Dispersed Shale Model.....	54
3.5.6.2.2.3 Modified Total Shale Model.....	54
3.5.6.2.2.4 Fertl and Hammack Equation.....	54
3.5.6.2.2.5 Fertl Equation.....	55
3.5.6.2.2.6 Indonesian Equation.....	55
3.5.6.2.2.7 Waxman and Smits Model.....	56
3.5.6.2.2.8 Juhasz Model.....	56
3.5.6.2.2.9 Shaly-Sand Model "Dual Water"	57
3.5.6.2.3 Selected Models for Water Saturation Determination.....	58
3.5.6.3 Hydrocarbon Saturation Determination.....	58

<u>Subject.</u>	<u>Page.</u>
3.5.7 Lithology Estimation.....	59
3.5.7.1 M N Plot.....	59
3.5.7.2 A K Plot.....	60
3.5.7.3 MID Plot.....	60
 <u>CHAPTER IV</u> <u>PETROPHYSICAL CHARACTERISTICS OF ASL</u> <u>AND HAWARA FORMATIONS</u>	
4.1 Introduction.....	63
4.2 Fluid, Matrix and Shale Parameters Determination.....	63
4.2.1 Fluid Parameters.....	63
4.2.2 Matrix Parameters.....	64
4.2.3 Shale Parameters.....	64
4.3 Water Resistivity Determination Using Volume of Shale – Apparent Water Resistivity Crossplot.....	64
4.4 Single and Double Curve Indicators for Porosity and Shale Volume Determination.....	70
4.4.1 Volume of Shale.....	70
4.4.2 Total and Effective Porosities.....	86
4.4.3 Volume of Shale, Total and Effective Porosities Determination Using Combined Crossplots.....	97
4.4.3.1 Applications.....	97
4.5 GR - ($\phi_N - \phi_D$) and Fluid Identification (FID) Crossplots for Gas Saturation Determination.....	108
4.5.1 Applications.....	109
i- Asl Sand Section.....	109
ii- Asl Marl Section.....	110
iii- Hawara Formation.....	110

<u>Subject.</u>	<u>Page.</u>
4.6 Pickett Plot for Water Saturation Determination (S_w)	120
4.6.1 Applications.....	121
4.6.1.1 GS 172-2 Well.....	121
4.6.1.2 J2ST1 Well.....	122
4.6.1.3 J3A Well.....	125
4.6.1.4 J4ST2 Well.....	127
4.6.1.5 J5 Well.....	127
4.6.1.6 J6A Well.....	129
4.6.1.7 J7A Well.....	132
4.6.1.8 NO 159-1 Well.....	134
4.6.1.9 NO 159-2 Well.....	134
4.7 (R_w) _{app} , R_o - R_t and F-F _{deep} Plot for Hydrocarbon Saturation	137
Determination.....	
4.7.1 (R_w) _{app} Method.....	137
4.7.2 R_o - R_t Overlay.....	138
4.7.3 F-F _{deep} Overlay.....	139
4.7.4 Applications.....	140
4.7.4.1 GS 172-2 Well.....	141
4.7.4.2 J2ST1 Well.....	141
4.7.4.3 J3A Well.....	143
4.7.4.4 J4ST2 Well.....	146
4.7.4.5 J5 Well.....	148
4.7.4.6 J6A Well.....	148
4.7.4.7 J7A Well.....	150
4.7.4.8 NO 159-1 Well.....	153
4.7.4.9 NO 159-2 Well.....	155
4.8 MN, AK and MID Plots for Lithology Identification.....	155

<u>Subject.</u>	<u>Page.</u>
4.9 Petrofacies Analysis.....	157
4.9.1 Isopach Maps.....	167
4.9.1.1 Isopach Map of Asl Marl Section.....	167
4.9.1.2 Isopach Map of Asl Sand Section.....	167
4.9.1.3 Isopach Map of Hawara Formation.....	170
4.9.2 Lithofacies Maps.....	170
4.9.2.1 Volume of Shale Distribution Maps.....	170
4.9.2.1.1 Volume of Shale Distribution Map of Asl Marl Section.....	170
4.9.2.1.2 Volume of Shale Distribution Map of Hawara Formation.....	172
4.9.2.2 Sandstone and Limestone Distribution Maps.....	172
4.9.2.2.1 Limestone Distribution Map of Asl Marl Section.....	172
4.9.2.2.2 Sandstone Distribution Map of Asl Sand Section.....	176
4.9.3 Ternary Diagrams.....	176
4.9.3.1 Facies Triangle.....	176
4.9.3.2 Petrophysical Triangle.....	178

CHAPTER V

INTEGRATED SEISMIC AND LOGGING STUDIES

5.1 Introduction.....	182
5.2 Velocity Analysis.....	182
5.2.1 One Way and Two Way Times.....	182
5.2.2 Average velocity.....	183
5.2.3 Interval Velocity.....	183
5.2.4 Applications.....	184
5.2.4.1 Time-Depth and Velocity Curves of GS 172-2 Well.....	184
5.2.4.1 Time-Depth and Velocity Curves of NO 159-1 Well.....	186

<u>Subject.</u>	<u>Page.</u>
5.2.4.3 Time-Depth and Velocity Curves of GS 173-2 Well.....	188
5.2.4.4 Time-Depth and Velocity Curves of NO 183-1 Well.....	188
5.3 Acoustic Impedance and Reflection Coefficient.....	191
5.4 Synthetic Seismograms.....	192
5.4.1 Applications.....	192
5.4.1.1 Synthetic Seismogram of GS 172-2 Well.....	192
5.4.1.2 Synthetic Seismogram of J2ST1 Well.....	193
5.4.1.3 Synthetic Seismogram of J4ST2 Well.....	195
5.4.1.4 Synthetic Seismogram of J5 Well.....	198
5.4.1.5 Synthetic Seismogram of J6A Well.....	198
5.4.1.6 Synthetic Seismogram of NO 159-1 Well.....	201
5.4.1.7 Synthetic Seismogram of NO 159-2 Well.....	201
5.5 Petrophysical Characteristics of the Two Studied Formations Using Seismic and Logging Properties.....	204
5.5.1 Impedance-Velocity and Porosity Relations.....	204
5.5.1.1 Impedance-Porosity.....	205
5.5.1.2 Velocity-Porosity.....	206
5.5.2 Velocity-Lithology and Fluid Saturation Relations.....	207
5.5.2.1 Velocity (Vp) – Gamma Ray Crossplot.....	217
5.5.2.2 Velocity (Vp) – Density Crossplot.....	218
<u>CHAPTER VI</u>	
<u>SOURCE ROCKS EVALUATION AND HYDROCARBON</u>	
<u>POTENTIALITIES OF THE STUDY AREA</u>	
6.1 Introduction.....	229
6.2 Selected View of the Previous Use of Logs in Petroleum Geochemistry.....	230

<u>Subject.</u>	<u>Page.</u>
6.2 Response of Wire-Line Logs to Organic Matter.....	231
6.2.1 Gamma Ray Log.....	231
6.2.2 Density Log.....	232
6.2.3 Resistivity Log.....	233
6.2.4 Density - Resistivity and Gamma Ray Crossplots.....	233
6.3 Methods of Study.....	239
6.3.1 $\Delta \log R$ Technique.....	239
6.3.2 Density Log Method.....	241
6.4 Applications.....	243
6.4.1 Evaluation of Total Organic Carbon Content (TOC) With Depth...	243
6.4.1.1 Asl Formation.....	244
6.4.1.1.1 Asl Marl.....	244
6.4.1.1.2 Asl Sand.....	244
i- Oil -Bearing Asl Sand.....	245
ii- Water -Bearing Asl Sand.....	245
iii- Oil - Water Contact.....	255
6.4.1.2 Hawara Formation.....	255
6.4.2 Lateral Distribution of Total Organic Carbon Content TOC%	255
6.4.2.1 Total Organic Carbon Distribution Map of Asl Marl Section.....	255
6.4.2.2 Total Organic Carbon Distribution Map of Hawara Formation.....	257
6.5 Model for Determining Water and Hydrocarbon Saturation Using	257
Source Rock Parameters.....	
6.5.1 Applications.....	260
6.5.1.1 Asl Formation.....	261
6.5.1.1.1 Asl Sand Zone.....	261
6.5.1.1.2 Asl Marl Zone.....	261

<u>Subject.</u>	<u>Page.</u>
6.5.1.2 Hawara Formation.....	271
6.6 Hydrocarbon Potentialities.....	271
6.6.1 Petrophysical Data Logs (PDL)	277
6.6.1.1 Petrophysical Data Log of GS 172-2 Well.....	279
6.6.1.2 Petrophysical Data Log of J2ST1 Well.....	281
6.6.1.3 Petrophysical Data Log of J3A Well.....	281
6.6.1.4 Petrophysical Data Log of J4ST2 Well.....	283
6.6.1.5 Petrophysical Data Log of J5 Well.....	285
6.6.1.6 Petrophysical Data Log of J6A Well.....	286
6.6.1.7 Petrophysical Data Log of J7A Well.....	290
6.6.1.8 Petrophysical Data Log of NO 159-1 Well.....	290
6.6.1.9 Petrophysical Data Log of NO 159-2 Well.....	291
6.6.2 Lateral Distribution of Petrophysical Parameters.....	295
6.6.2.1 Total Porosity Distribution Map of Asl Sand Reservoir.....	295
6.6.2.2 Effective Porosity Distribution Map of Asl Sand Reservoir.....	295
6.6.2.3 Water Saturation Distribution Map of Asl Sand Reservoir.....	296
6.6.2.4 Hydrocarbon Saturation Distribution Map of Asl Sand Reservoir.....	296
6.6.3 Pay Cut-Offs Determination of Asl Sand Reservoir.....	301
6.6.3.1 Applications.....	302
SUMMARY AND CONCLUSIONS.....	314
REFERENCES.....	321
ARABIC SUMMARY.....
