* DIAGNOSIS OF PILONIDAL SINUS.....	33
* DIFFERENTIAL DIAGNOSIS.....	35
* TREATMENT OF PILONIDAL SINUS	36
A. Conservative treatment.....	37
- Phenol Injection.....	37
- Cryosurgery.....	39
B. Surgical treatment :	
- Treatment of acute pilonidal abscess.....	44
- Treatment of chronic pilonidal abscess.....	47
- Excision and healding by open granulation.....	50
- Excision and partial wound closure marsupialization.....	56
- Excision and delayed closure.....	62
- Excision and primary closure.....	67
- Oblique excision of pilonidal sinus.....	73
- D excision method.....	76
- T or L shaped method.....	76
- Transvision excision method	76
- Treatment of pilonidal sinus by radical excision and closure with pleastic procedure.....	82
- Excision and closure with plastic procedures.....	82
- Z-plasty treatment	82
- Local rectangular rotation flap.....	83
- Excision and closure by advancement flap.....	86
- Transposition rhomboid flap.....	87
- Cleft closure technique.....	98
