	Page
<i>Acknowledgments</i>	i
<i>Abstract</i>	iii
 Chapter 1	
<i>Introduction</i>	1
 Chapter 2	
<i>Theory of Photothermal Deflection Spectroscopy</i>	14
2.1 Introduction	14
2.2 Temperature distribution in the sample and the surrounding media	16
2.2a Solution of heat diffusion equation in the three region	19
2.2b Temperature distribution for collinear PDS	25
2.2c Temperature distribution for transversal PDS	27
2.3 Optical beam deflection	29
2.4 Probe beam deflection for Transverse PDS	31

	Page
Chapter 3	
<i>Experimental Procedure</i>	41
3.1 Experimental configuration	41
3.2 Analysis of detector response	47
3.3 Calibration of the monochromator	49
Chapter 4	
<i>Results and Discussions</i>	53
4.1 The dependence of the amplitude and the phase of the signal on the chopper frequency	54
4.2 The dependence of the signal on the probe beam normal offset Z_0	62
4.3 Spectral results	66
4.4 Comparison with photoacoustic	76
Chapter 5	
<i>Concluding Remarks</i>	85
