

# **CONTENTS**

<b>Introduction</b>	1
<b>CHAPTER I : Review of literature</b>	
I.1. Efficacy of entomopathogenic fungi against lepidopteran and other insects	6
I.2. Mode of action of entomopathogenic fungi	15
I.3. Characterization of entomopathogenic fungi	22
I.3.1. Morphological characterization of entomopathogenic fungi	22
I.3.2. Molecular characterization of entomopathogenic fungi	24
I.3.2.1. Polymerase chain Reaction	24
I.3.2.2. Polyacrylamide Gel Electrophoresis	35
<b>CHAPTER II: Materials and Methods</b>	
II. 1. Materials	38
II.1.1. Entomopathogenic fungi	38
II.1.2. Entomopathogenic fungi media	38
II.1.3. Buffers	40
II.1.4. Instruments	45
II.1.5. Test insect	46
II.2. Method	46
II.2.1. Mass production of fungi	46
II.2.1.1 Spore production .	46
II.2.1.1.1. Efficiency of the fungal spores against the Egyptian cotton leaf worm <i>spodoptera littoralis</i>	47
II.2.1.2. Metabolites production	48

II.2.1.2.1. Efficiency of the fungal metabolites against the Egyptian cotton leaf worm <i>spodoptera littoralis</i>	49
II.2.2. Isolation of DNA from entomopathogenic fungi	51
II.2.2.1 Preparation of the fungal mycelium	51
II.2.2.2. Extraction of fungal DNA	51
II.2.2.3. Polymerase chain reaction	52
II.2.3. Extraction of protein from entomopathogenic fungi	54
II.2.3.1. Preparation and casting of sodium dodecyl sulfate polyacrylamide gel electrophoresis (SDS-PAGE)	54
II.2.3.2. Electrophoresis of protein	55

## CHAPTER III: Results

III.1. Virulence of entomopathogenic fungi (Spore suspension) against 2 <sup>nd</sup> instar larvae of <i>Spodoptera littoralis</i>	57
III.2. Virulence of entomopathogenic fungi (Spore suspension) against 4 <sup>th</sup> instar larvae of <i>Spodoptera littoralis</i>	71
III.3. Virulence of entomopathogenic fungi (Metabolites) against 2 <sup>nd</sup> instar larvae of <i>Spodoptera littoralis</i>	85
III.4. Virulence of entomopathogenic fungi (Metabolites) against 4 <sup>th</sup> instar larvae of <i>Spodoptera littoralis</i>	99
III.5. Molecular characterization	118
III.5.1. RAPD-PCR profiles	118
III.5.2. SDS-PAGE analysis of total cellular proteins	122

## CHAPTER IV : Discussion 132

Summary	142
