

CONTENTS

	Page No.
✱ INTRODUCTION.....	1
✱ AIM OF THEB WORK.....	2
✱ REVIEW OF LITERATURE.....	
Osteoarthritis.....	
~ Epidemiology of osteoarthritis.....	3
~ Etiology of osteoarthritis.....	5
~ Risk factors for osteoarthritis.....	5
~ Classification of osteoarthritis.....	9
~ Pathology of osteoarthritis.....	11
~ path-physiology of osteoarthritis.....	15
~ Clinical picture of osteoarthritis.....	18
~ Radiology of osteoarthritis.....	21
~ Management of osteoarthritis.....	24
Cytokines.....	
~ Definition of cytokines.....	33
~ Production of cytokines.....	33
~ Classification of cytokines.....	33
~ Biological actions of cytokines.....	34
~ Specific cytokines.....	35
~ Cytokine regulation.....	39
~ Induction of tissue destruction.....	41
~ Natural antibodies to cytokines.....	42
~receptor antagonists.....	42
Transforming growth factor beta.....	
~ Transforming growth factor beta super-family.....	43
~ Transforming growth factor beta receptors.....	44
~ Production of transforming growth factor beta.....	45
~ Functions of transforming growth factor beta.....	45
~ Role of transforming growth factor beta in extra-cellular matrix deposition.....	48
~ Role of transforming growth factor beta in wound healing.....	49
~ Transforming growth factor beta as immunosuppressant.....	49
~ Role of transforming growth factor beta in osteoarthritis.....	50
✱ SUPJECT AND METHODS.....	52
✱ RESULTS.....	59
✱ DISCUSION.....	88
✱ SUMMARY AND CONCOLUSION.....	94
✱ REFERENCES.....	99
✱ ARABIC SUMMARY.....
