1. INTRODUCTION	
2. REVIEW OF LITERATURE	
2.1 Feeding behaviourr in the larvae and adults	3
2.2 Mating behaviour	9
2.3 Oviposition behaviour	11
2.4 Flight behaviour	14
2.5 Larval activity and tunnel-making behaviour	17
2.6 Adult activity and tunnel-making behaviour	20
2.7 Factors affecting the insect behaviour	21
2.7.1 a) Immature stages	21
2.7.2 b) Adult stage	23
2.8 The effect of colour traps and their height on scarrabaeid beetles.	25
2.9 Susceptibility of scarabaeidae to insecticides.	26
3- MATERIALS AND METHODS	31
3.1 Part I <i>P. fasciata</i> .	31
3.1.1 Insect collection and maintenance	31
3.1.2 a) Immature stages	32
3.1.3 b) Adult stage	35
3.2 Part II <i>T. squalida</i> .	38
3.2.1 Insect collection and maintenance	38
3.2.2 Immature stages	38
3.2.3 Adult stage	42

4- RESULT AND DISCUSSION

52

- 4.1.1 Effect of the presence of different germinating seeds in the soil on larval development. 56
- 4.1.2 Effect of the presence of plant roots on the larval movement in the soil. 56
- 4.1.3 Effect of temperature on the 3rd larval instar of *P. fasciata*. 59
- 4.1.4 Attraction of *P. fasciata* beetles to different coloured lights. 65
- 4.1.5 Influence of sugars on feeding response of *P. fasciata* adults. 70
- 4.1.6 Field observation on the seasonal flight activity of *P. fasciata*. 75
- 4.1.7 Mating behaviour of *P. fasciata*. 78
- 4.1.8 Adult emergence. 80
- 4.1.9 Susceptibility of L₃ *P. fasciata* to three chemical insecticides. 82
- 4.2 Part II *T. squalida* scop. 86
- 4.2.1 Effect of temperature on the incubation period and egg hatchability of *T. squalida*. 88
- 4.2.2 Effect of temperature on the development of the 1st and 2nd larval instars of *T. squalida*. 90
