

LIST OF CONTENTS

CHAPTER		PAGE
	ACKNOWLEDGMENT	1
I	INTRODUCTION	3
II	REVIEW OF LITERATURE	3
	A. Controlled-Release Formulations	3
	B. Biological Effects of TBTO on Different Living Organisms	5
	C. Controlled-Release Formulations in Mosquitoes and Other Aquatic Animals	7
	D. Histological Investigations	33
III	MATERIALS AND METHODS	40
	A. Mosquito Colony	40
	B. Preparation of TBTI-MMA Copolymer Formulation	42
	a. Preparation of Tributyltin Itaconate (TBTI)	42
	b. Binary Copolymerization Reaction of TBTI with Methyl Methacrylate (MMA)	43
	C. Preparation of New Cured Polyester Formulation ..	44
	D. Bioassay of TBTI-MMA Copolymer Formulation ..	46
	a. Accumulated Toxicity	46
	b. Weekly Toxicity	46

CHAPTER	PAGE
c. Degradation of the Toxicity	47
d. Effect of pH on Toxicity	47
e. Effect of Temperature on the Larval Medium	48
f. Semifield Bioassay of TBTO Copolymer Formulation	48
E. Chemical Assay of TBTO Copolymer Formulation	49
a. Reagents	49
b. Determination of Tin in Water Samples ...	49
F. Bioassay of Polyester Formulation	50
G. Histological Techniques	51
IV RESULTS AND DISCUSSIONS	53
A. Characteristics of TBTI-MMA Copolymer Formulation	53
B. Bioassay of the TBTI-MMA Copolymer Formulation	53
a. Accumulated Toxicity	55
b. Weekly Release	58
c. Degradation of the Released Toxic Compound	60
d. Effect of pH on Toxicity	62
e. Effect of Temperature of the Larval Medium	66
f. Semifield Bioassay of the Formulation ...	68
C. Chemical Assay of the TBTI-MMA Copolymer Formulation	70
D. Characteristics of the Cured Polyester Formulation	73

PAGE

	E. Bioassay of the Polyester Formulation	74
	a. Accumulated Toxicity	74
	b. Weekly Release	76
	c. Degradation of the Released Toxic Compound ..	79
	F. Chemical Assay of the Polyester Formulation ..	79
	G. Histopathological Effect of TBTI-MMA Copolymer Formulation on Larval Tissues	84
	a. Untreated Larvae	84
	b. Treated Larvae	85
