I- INTRODUCTION	1
Plan of work	3
II- LITERATURE REVIEW	4
1- Effect of using the insecticides in combination with the surfactant additives	4
2- Toxicological studies	9
2.1- Resistance of mosquitoes to insecticides	9
3- Biochemical studies	13
3.1- ATPase	14
3.2- Acid phosphatase.	19
4- Histopathological studies	21
5- Ultrastructural aspects	30
6- Histochemical studies	34
6.1- ATPase	34
6.2- Acid phosphatase	34
III- MATERIALS AND METHODS	37
1- Test insect.	37
1.1- Origin of the stock colony.	37
1.2- Laboratory rearing	37
2- The insecticides used	38

2.1- Synthetic pyrethroid	38
2.1.1- Sumicidin	38
2.2- Organophosphorus.	39
2.2.1- Fenitrothion	39
2.2.2- Malathion	39
2.3- Carbamate	39
2.3.1- Propoxur	39
3- Surfactants used	39
3.1- Tween 80.....	39
3.2- Triton X-100	39
3.3- Triton 20	39
4- Bioassays	40
4.1- Preparation of concentrations.	40
4.2- Susceptibility experiments	40
4.3- Insecticides - surfactant combinations	41
4.4- Statistical analysis of the data	42
5- Biochemical assays of enzyme activity of <i>Culex pipiens</i> larvae in relation to the surfactants synergistic effect.	42
5.1- Biochemical ATPase	42
5.1.1- Extraction.	42
5.1.2- Quantitative estimation of ATPase activities	43
5.2- The Folin-lowry method of protein assay.	44
5.2.1- Reagents used.	44
5.2.2- Procedure.	45

5.3- Biochemical acid phosphatase.	46
5.3.1- Extraction.	46
5.3.2- Quantitative estimation of acid phosphatase activity...	46
6- Ultrastructural studies.	47
6.1- Processing of samples.....	47
6.2- Techinque used.	48
7- Histochemical studies.	50
7.1- Ultrastructural localization of adenosine triphosphatase (ATPase).	51
7.2- Ultrastructural localization of acid phosphatase.	52
IV- RESULTS	53
1- Susceptibility levels of <i>Culex pipiens</i> larvae to certain insecticides.	53
2- Comparative susceptibility of <i>Culex</i> <i>pipiens</i> larvae to the tested insecticides.	54
3- Combined effect of the surfactants with the insecticides	55
3.1- Effect of the surfactants with the pyrethroid.	55
3.2- Effect of the surfactants with the organophosphorus....	56
3.3- Effect of the surfactants with the carbamate.	57
4- Biochemical assays of some enzyme activity of <i>Culex</i> <i>pipiens</i> larvae in relation to the synergistic effect of surfactants to the insecticides	58

4.1- ATPase.	58
4.1.1- Effect of Sumicidin and surfactants or both on ATPase activity.	58
4.1.2- Effect of the organophosphorus and surfactants or both on ATPase activity.	60
4.1.3- Effect of the Propoxur and the surfactants or both on ATPase.	61
4.1.4- Comparative inhibition of ATPase enzyme regarding with the treatment by the insecticides or its mixture with the surfactants	62
4.2- Acid phosphatase.	63
4.2.1- Effect of Sumicidin and surfactants or both on acid phosphatase activity.	63
4.2.2- Effect of organophosphorus and surfactants or both on acid phosphatase activity.	64
4.2.3- Effect of carbamate and surfactant or both on acid phosphatase activity.	65
4.2.4- Comparative difference on free and total acid phosphatase activity of <i>Culex pipiens</i> treated with the insecticides or with their mixture with the surfactants	66
5- Histopathological studies	67
5.1.1- Sumicidin treated larvae	67
5.1.2- Larvae treated with (Sumicidin + Triton 20) mixture.....	68
5.1.3- Larvae treated with (Sumicidin + Tween 80) mixture ...	68

5.2.1- Fenitrothion treated larvae	69
5.2.2- Larvae treated with (Fenitrothion + Triton 20) mixture..	70
5.2.3- Larvae treated with (Fenitrothion + Tween 80) mixture..	70
6- Ultrastructural studies.	71
6.1- Fine structure of non treated <i>Culex pipiens</i> larvae.	71
6.1.1- Integument.	71
6.1.2- Muscle cells	72
6.1.3- Fat tissues	73
6.1.4- Midgut cells	73
6.2- Fine structure of Sumicidin treated <i>Culex pipiens</i> larvae	76
6.2.1- Integument	76
6.2.2- Muscle cells	76
6.2.3.- Fat tissues	76
6.2.4- Midgut cells	77
6.3- Fine structure of <i>Culex pipiens</i> larvae treated with the mixture of Sumicidin and Triton 20.	79
6.3.1- Integument.	79
6.3.2- Muscle cells	79
6.3.3- Fat tissues	80
6.3.4- Midgut cells	80
7- Ultrastructural localization of certain enzyme activity in mosquito larvae.	82
7.1- Localization of ATPase in <i>Culex pipiens</i> larva fine structure	82

7.2- Localization of acid phosphatase in <i>Culex pipiens</i>	
larva fine structure.	84
V. DISCUSSION AND CONCLUSION.....	86
VI. SUMMARY	106
VII. LITERATURE CITED.	112
VIII. ARABIC SUMMARY.
