Introduction.....	1
chapter (I) Anatomy of Spine.....	2
chapter (II) Pathogenesis and Biomechanics of Scoliosis....	9
♦ <i>Biomechanics of Spine</i>.....	9
- General Concepts and Definitions.....	9
- Spinal motion segment.....	9
- Spinal Kinematics.....	11
- Property of coupling.....	11
- The Mechanical Principles in Treatment of Scoliosis.....	12
♦ <i>Pathogenesis of structural spine deformity</i>..	13
- Mechanical Factors.....	14
- Biological factors.....	17
Chapter (III) Diagnosis of Scoliosis	19
♦ <i>Clinical Features</i>.....	19
- History.....	19
- Examination.....	19
- Clinical Measurement.....	22

♦	<i>Radiological Appearances.....</i>	<i>25</i>
Chapter (IV)	Types and Classifications of Scoliosis.....	33
♦	<i>Classifications of Scoliosis.....</i>	<i>33</i>
	-According to the site of the apex of the curve.....	33
	-According to the curve pattern (King's classification)...	33
	-According to the magnitude of the curve.....	34
	-According to the etiology.....	35
Chapter (V)	Management of Scoliosis.....	56
♦	<i>Strategy of Management of Scoliosis.....</i>	<i>56</i>
♦	<i>Management of idiopathic scoliosis</i>	<i>57</i>
	- Management of idiopathic infantile scoliosis	57
	- Management of Juvenile idiopathic scoliosis	59
	- Management of adolescent idiopathic scoliosis	60
	- Management of adult scoliosis.....	64
♦	<i>Management of Congenital Scoliosis.....</i>	<i>66</i>
♦	<i>Management of Paralytic Scoliosis.....</i>	<i>72</i>
♦	<i>Treatment of Scoliosis of Neurofibriomatosis..</i>	<i>77</i>
♦	<i>Management of scoliosis in mesenchymal disorders.....</i>	<i>78</i>
♦	<i>Management of Scoliosis in Osteogenesis Imperfecta.....</i>	<i>79</i>
♦	<i>Complication of Scoliosis Surgery.....</i>	<i>79</i>

- Early complications.....79

- Late Complications.....81

References.....83

Summary.....91
