

CONTENTS

	Page
Introduction	1
Review of Literature	3
Micro algae as Feed	4
Problems and the need for design studies	5
Upscaling	10
Population dynamics	12
Types of cultures	13
Species	19
A history of the culture of phytoplankton	
as an aqua cultural feed	21
General requirements and considerations	23
Culture medium/nutrients	24
pH	26
Light	27
Temperature	28
Fertilizers	30
Aeration/mixing (turbulence)	32
Monitoring	34
Equipment and supplies commonly used systems ¹	35
Materials and Methods	40
Isolation, purification and identification of the organism	40
Choice of nutrient culture solution	41
Method of experimentation	42
I- Indoor experiments	42
Exp. (1): Effect of different media on growth of <i>Chlorella</i>	
<i>vulgaris</i>	42
Exp. (2): Effect of pH value on growth of <i>Chlorella vulgaris</i>	44

Exp. (3): Effect of photoperiods on growth of <i>Chlorella vulgaris</i>	44
Exp. (4): Effect of light intensity on growth of <i>Chlorella vulgaris</i>	44
Exp. (5): Effect of temperature on growth of <i>Chlorella vulgaris</i>	44
II-Stages of Algal Culture (Mass Production of <i>C. vulgaris</i>)	44
Alga Stock Culture Room	45
Stock Culture Maintenance Routine	45
Indoor Culture System	46
Indoor Production Routine	46
Carboy Cultures	47
Outdoor Production System	48
Outdoor Production Routine	48
Chemical Sterilization	49
Nutrients for outdoor algae cultures	50
Aeration of cultures	51
Harvesting and Processing the algal biomass	51
III-OUTDOOR EXPERIMENTS	52
Methods of experimentation	52
Exp.(1): Growth response of <i>Chlorella vulgaris</i> at different commercial fertilizers with tap water.....	52
Exp.(2): Growth response of <i>Chlorella vulgaris</i> at different nitrogen sources in media of outdoor cultures.	53
Exp.(3): Growth response of <i>Chlorella vulgaris</i> at different lines of aeration.	53
IV-FEEDING EXPERIMENT	54
Biochemical analysis	56
Dry weight	56
Chlorophyll "a" estimation	56
Cell counting	57

Crude protein	57
Crude fat	59
Crude fiber	60
Ash content	62
Total carbohydrate content	63
Amino-acid composition	63
Nucleic acid contents	63
Statistical Analysis of Data	66
<u>Experimental Results</u>	67
Part I	67
I- Indoor Experiments	67
Growth curve experiment	67
Exp. (1): Effect of different media on growth of <i>Chlorella</i> <i>vulgaris</i>	69
Exp. (2): Effect of pH value on growth of <i>Chlorella vulgaris</i>	76
Exp. (3): Effect of photoperiods on growth of <i>Chlorella vulgaris</i>	83
Exp. (4): Effect of light intensity on growth of <i>Chlorella vulgaris</i>	90
Exp. (5): Effect of temperature on growth of <i>Chlorella vulgaris</i>	97
Part II	104
II-Algal Culture (Mass Production) of <i>Chlorella vulgaris</i> in	
Outdoor Cultivation	104
Harvesting	104
Chemical Analysis of the Dried Algal Biomass	105
Part III	108
III-Outdoor Experiments	108
Exp.(1): Growth response of <i>Chlorella vulgaris</i> at different commercial fertilizers with tap water.	108

Exp.(2): Growth response of <i>Chlorella vulgaris</i> at different nitrogen sources in media of outdoor cultures.....	115
Exp.(3): Growth response of <i>Chlorella vulgaris</i> at different lines of aeration.....	122
Part IV	129
IV- Silver Carp Feeding Experiment	129
Discussion	140
Summary	165
References	169
