

Sensitivity to some antibiotics	118
Some enzymatic potentialities	122
Taxonomic identification of isolates of group one	122
<b>Group Two</b>	
<b>Subgroup a</b>	
Morphological characteristics	125
Cultural characteristics	125
Growth characteristics	130
Antimicrobial potentialities	133
Sensitivity to some antibiotics	133
Some enzymatic potentialities	133
Taxonomic identification of isolates of group two	138
<b>Subgroup b</b>	
Morphological characteristics	140
Cultural characteristics	140
Growth characteristics	140
Antimicrobial potentialities	147
Sensitivity to some antibiotics	147
Some enzymatic potentialities	152
Taxonomic identification of isolates of group two	152
<b>Group Three</b>	
Morphological characteristics	155
Cultural characteristics	155
Growth characteristics	160
Antimicrobial potentialities	162
Sensitivity to some antibiotics	162
Some enzymatic potentialities	167
Taxonomic identification of isolates of group three	167
Comparative study of the fatty acid composition of the cell wall of the groups of the blue section	170

## **GREEN SECTION**

<b>Group One</b>	
Morphological characteristics	173
Cultural characteristics	173
Growth characteristics	181
Antimicrobial potentialities	184
Sensitivity to some antibiotics	184
Some enzymatic potentialities	184
Taxonomic identification of isolates of group one	188
<b>Group Two</b>	
Morphological characteristics	190
Cultural characteristics	190
Growth characteristics	196
Antimicrobial potentialities	200
Sensitivity to some antibiotics	200
Some enzymatic potentialities	200
Taxonomic identification of isolates of group two	201
<b>Group Three</b>	
Morphological characteristics	205
Cultural characteristics	205
Growth characteristics	211
Antimicrobial potentialities	213
Sensitivity to some antibiotics	213
Some enzymatic potentialities	219
Taxonomic identification of isolates of group three	219
Comparative study of the fatty acid composition of the cell wall of the groups of the green section	222

## **BROWN SECTION**

<b>Group One</b>	
Morphological characteristics	224
Cultural characteristics	224
Growth characteristics	229

---

Antimicrobial potentialities	232
Sensitivity to some antibiotics	232
Some enzymatic potentialities	232
Taxonomic identification of isolates of group one	236
<b>Group Two</b>	
Morphological characteristics	238
Cultural characteristics	238
Growth characteristics	243
Antimicrobial potentialities	245
Sensitivity to some antibiotics	245
Some enzymatic potentialities	250
Taxonomic identification of isolates of group two	250
<b>Group Three</b>	
Morphological characteristics	253
Cultural characteristics	253
Growth characteristics	261
Antimicrobial potentialities	264
Sensitivity to some antibiotics	264
Some enzymatic potentialities	264
Taxonomic identification of isolates of group three.	269
Comparative study of the fatty acid composition of the cell wall of the groups of the brown section	271

## RED SECTION

<b>Group One</b>	
Morphological characteristics	273
Cultural characteristics	273
Growth characteristics	278
Antimicrobial potentialities	280
Sensitivity to some antibiotics	280
Some enzymatic potentialities	280
Taxonomic identification of isolates of group one	285

---

Fatty acid composition of the cell wall of group one of the red section	285
---	-----

## YELLOW SECTION

### Group One

Morphological characteristics	289
Cultural characteristics	289
Growth characteristics	294
Antimicrobial potentialities	296
Sensitivity to some antibiotics	296
Some enzymatic potentialities	296
Taxonomic identification of isolates of group one.	302

### Group Two

Morphological characteristics	304
Cultural characteristics	304
Growth characteristics	305
Antimicrobial potentialities	312
Sensitivity to some antibiotics	312
Some enzymatic potentialities	312
Taxonomic identification of isolates of group two	317

### Group Three

Morphological characteristics	319
Cultural characteristics	319
Growth characteristics	324
Antimicrobial potentialities	326
Sensitivity to some antibiotics	326
Some enzymatic potentialities	326
Taxonomic identification of isolates of group three.	332

### Group Four

Morphological characteristics	334
Cultural characteristics	334
Growth characteristics	339
