ABSTRACT	1
CHAPTER I : Theoretical Review	4
I Non - Crystalline Materials	4
I.1 Definitions	4
I.1.1 Amorphous State	4
I.1.2 Glassy State and Glass Transition	5
I.2 Chalcogenide Glasses	8
I.2.1 Defect States	10
I.3. Band Approach for Non- Crystalline Systems	14
I.3.1 The Basic Model	14
I.3.2 Mott - CFO Model	15
I.3.3 Davis - Mott Model	16
I.3.4 Marshall - Owen Model	17
I.3.5 Sharp Band Edge Model	17
I.3.6 Small Polaron Model	17
I.3.7 Licciardello Model	18
I.3.8 Ovshinsky and Adler Model	18
I.4 D.C Electrical Conductivity of Amorphous Semiconductors	20
I.5 Chemical Bond Approach to the Structures of Chalcogenide Glasses	24
I.6 Theoretical Models for Switching and Memory Phenomena	30
I.6.1 Introduction	30

I.6.2	Heterogeneous Model	31
I.6.3	Thermal and Electrothermal Theories.....	33
I.6.4	Electronic Theories.....	35
I.7	A.C Conduction in chalcogenide Glasses	38
I.7.1	Introduction	38
I.7.2	Origin of a Linear Frequency-Dependent Conductivity	39
I.7.3	Models for A.C Conductivity	44
I.7.3.1	Quantum - Mechanical Tunnelling	44
	(a) Electronic Tunnelling	44
	(b) Small - Polaron Tunnelling	45
	(c) Large - Polaron Tunnelling	47
	(d) Atomic Tunnelling	49
I.7.3.2	Relaxation due to Hopping	49
	(a) Atomic Hopping	49
	(b) Correlated Barrier Hopping of Electrons ...	50
I.8	Dielectric Properties of Glasses	54
I.8.1	Polarization in Glass	54
I.8.2	The Effect of Frequency and Temperature on the Dielectric loss	56
I.9	Literature Survey	59
I.10	Aim of the Work	65
CHAPTER II : Experimental Techniques		66
II.1	Perparation of Glasses	66
II.2	Perparation of Thin Films	67
II.3	Characterization of the Samples	68

II.3.1 X-ray Diffraction Patterns	68
II.3.2 D.T.A. Traces	68
II.4 Electrical Measurements	70
II.4.1 D.C Conductivity Measurements	70
II.4.2 I - V Characteristics Measurements	71
II.4.3 A.C Conductivity Measurements	71

CHAPTER III : Electrical Properties of Bulk

$\text{Se}_{40} \text{Ge}_{60-x} \text{Te}_x$ Glasses	73
III.1 Temperature - Dependence of D.C Conductivity ...	73
III.2 I - V Characteristics	75
III.2.1 Effect of Temperature on the I-V Characteristics ..	76
III.2.2 Effect of Thickness on the I - V Characteristics	81
III.3 A . C Conductivity and Dielectric Measurements...	82
III.3.1 The Temperature Dependence of the A.C Conductivity	82
III.3.2 The Frequency Dependence of A.C. Conductivity ...	84
III.3.3 The Frequency Dependence of the Dielectric Constant	86
III.3.4 The Temperature Dependence of the Dielectric constant	87
III.3.5 The Temperature Dependence of the Dielectric Loss	88
III.3.6 The Frequency Dependence of the Dielectric Loss	89

CHAPTER IV : Electrical and Optical Properties of	
Se₄₀ Ge_{60-x} Te_x Thin Films	93
IV.1 The Current - Voltage Characteristics	93
IV.1.1 Effect of Temperature on the I-V Characteristics..	93
IV.1.2 Effect of Thickness on the I - V Characteristics ...	93
IV.2 Optical Properties of Se ₄₀ Ge _{60-x} Te _x Thin Films...	98
IV.2.1 Reflection and Transmission of a Plane Wave	98
IV.2.2 Experimental Measurements of Reflectivity and	
Transmission	104
IV.2.3 Results of Reflection and Transmission	105
IV.2.4 Discussion and Analysis of Results	107
IV.2.5 Methods for Optical Constants Determination.....	108
IV.2.6 Geometric Construction Methods for Optical	
Constants Determination	109
IV.2.7 Geometrical Solution	111
IV.2.8 Ellipsometric Measurements	114
IV.2.8.1 Optical Appartus	114
IV.2.8.2 The Results and Discussion	115
CONCLUSIONS	117
