Introduction.....	1
Material and Methods.....	19
- Leucocyte enzyme cytochemistry.....	21
- Hormone assay	26
- Biochemical determination.....	28
Results.....	30
- Clinical symptoms.....	30
1- Leucocyte enzyme cytochemistry.....	31
(1-a) Carbohydrate content of leucocytic cells as affected by oxadiazon.....	31
(1-b) Peroxidatic activity of leucocytic cells as affected by oxadiazon.....	42
(1-c) Sudan black-B activity of leucocytic cells as affected by oxadiazon.....	47
(1-d) Non-specific esterase reaction of leucocytic cells as affected by oxadiazon.....	52
(1-e) Alkaline phosphatase reaction of leucocytic cells as affected by oxadiazon.....	53
(1-f) Acid phosphatase reaction of leucocytic cells as affected by oxadiazon.....	54
2- Hormones.....	60
(2-a) Effect of different concentrations of oxadiazon on the plasma prolactin level of <i>Clarias lazera</i> and <i>Cyprinus carpio</i>	60
(2-b) Effect of different concentrations of oxadiazon on the plasma insulin level of <i>Clarias lazera</i> and <i>Cyprinus carpio</i>	65
(2-c) Effect of different concentrations of oxadiazon on the plasma glucagon level of <i>Clarias lazera</i> and <i>Cyprinus carpio</i>	70
(2-d) Effect of different concentrations of oxadiazon on the plasma cortisol level of <i>Clarias lazera</i> and <i>Cyprinus carpio</i>	75
(2-e) Effect of different concentrations of oxadiazon on the plasma ACTH level of <i>Clarias lazera</i> and <i>Cyprinus carpio</i>	80

- (3-a) Effect of different concentrations of oxadiazon on the plasma sodium level of *Clarias lazera* and *Cyprinus carpio*...85
- (3-b) Effect of different concentrations of oxadiazon on the plasma potassium level of *Clarias lazera* and *Cyprinus carpio*...90
- (3-c) Effect of different concentrations of oxadiazon on the plasma glucose level of *Clarias lazera* and *Cyprinus carpio*...95
- (3-d) Effect of different concentrations of oxadiazon on the plasma lactate level of *Clarias lazera* and *Cyprinus carpio*...100

Discussion.....105

Summary.....139
