

CONTENTS

	<u>PAGE</u>
I. INTRODUCTION	1
II. PHYSIOLOGY AND BIOCHEMISTRY OF CALCIUM AND PHOS- PHORUS METABOLISM	2
III. EMBRYOLOGY OF PARATHYROID GLANDS.....	12
IV. ANATOMY OF PARATHYROID GLANDS... ..	12
V. PHYSIOLOGY OF PARATHYROID GLAND.. ..	15
VI. HORMONAL REGULATION OF CALCIUM HOMEOSTASIS... ..	22
VII. PRESERVATION OF THE PARATHYROIDS DURING THYROID SURGERY	27
VIII. POST-OPERATIVE CHANGES IN SERUM CALCIUM LEVEL AFTER THYROIDECTOMY.. ..	33
- Mechanism of hypocalcaemia after thyroidectomy for thy- rotoxicosis	36
- Other theories for hypocalcaemia after thyroidectomy... ..	38
- Clinical findings in hypocalcaemia..	39
- Management of Hypocalcaemia after thyroidectomy	42
IX. THE NATURE OF HYPOCALCAEMIA IN ACUTE PANCREA- TITIS.	44
X. HYPERCALCAEMIA.... ..	46
- Clinical syndromes of hyperparathyroidism.....	47
- Hypercalcaemia due to malignancy	56
XI. CHANGES IN SERUM CALCIUM IN THYROID DISEASE	64
XII. SUMMARY	66
XIII. REFERENCES	68
IVX. ARABIC SUMMARY	.
