

CONTENTS

INTRODUCTION	1
REVIEW OF LITERATURE	3
MATERIALS AND METHODS	11
I. Estimation of some haematological parameters	12
I.1- Erythrocytes and total leukocytes	12
I.2- Determination of haemoglobin	13
I.3- Determination of packed cell volume	14
I.4- Erythrocyte indices	15
I.4-1. Mean corpuscular volume	15
I.4-2. Mean corpuscular haemoglobin concentration	15
I.4-3. Mean corpuscular haemoglobin	15
II- Determination of some biochemical constituents	16
II.1- proteins	
II.1-1- Determination of total protein	16
II.1-2- Determination of albumin	17
II.1-3- Estimation of globulin	17
II.2- Lipids	
II.2-1- Determination of total lipids	18
II.2-2- Determination of total cholesterol	19
II.2-3- Determination of triglycerides	20
II.3- Carbohydrates
