

CONTENTS

	Page
CHAPTER I : INTRODUCTION & AIM OF THE WORK	1
1-1- Introduction	1
1-2- Aim of the Work	3
CHAPTER II : HISTORICAL REVIEW	4
2-1- Biochemical and Trace Metal. Contents	4
2-2- Molluscan Haemocytes	5
2-3- Molluscan Excretory System	7
2-4- Effect of Heavy Metal. on Molluscs.....	10
CHAPTER III : MATERIAL & METHODS	13
3-1- Collection	13
3-2- Electrophoretic Study	13
3-2-1 Sample preparation.....	13
3-2-2 Preparation of stock solution	13
3-2-3- Procedures	16
3-3- Analysis of Biochemical Components and Heavy Metal Contents.....	21
3-3-1- Biochemical analysis	21
3-3-1-1- Determination of proteins	21
3-3-1-2- Determination of lipids	22
3-3-1-3- Determination of carbohydrates	22
3-3-1-4- Calculation of equivalent energy	22
3-3-2 Estimation of heavy metal contents	22
3-4- Collection and Examination of Haemolymph	22
3-5- Dissecting Examination	23
3-6- Light Microscopy	23
3-7- Electron Microscopy	24
3-8- Effect of Heavy Metals on the Clam, <i>Venerupis aurea</i>	25
3-8-1- Lethality of metals	26

	Page
3-8-2- Effect of heavy metals on burrowing activity	26
3-8-3- Effect of heavy metals on blood cells and excretory system.....	26
CHAPTER IV : TAXONOMIC STUDIES	27
4-1- Morphology	27
4-1 -1 <i>Venerupis aurea</i>	27
4-1-2- <i>Strombus tricornis</i>	29
4-1-3 <i>Sepia officinalis</i>	30
4-2- Electrophoretic studies	32
CHAPTER V : BIOCHEMICAL COMPOSITION & TRACE METAL CONTENTS OF THE INVESTIGATED MOLLUSCS	43
RESULTS	
5-1- Biochemical constituents	43
5-2 Trace metal contents	50
DISCUSSION	52
CHAPTER VI : COMPARATIVE STUDIES OF BLOOD CELLS IN THE INVESTIGATED MOLLUSCS	55
RESULTS	
6-1- Haemopoiesis	55
6-2- Behaviour of living blood cells	57
6-3 Types of haemocytes	60
6-3-1- Haemocytes of the bivalve, <i>Venerupis aurea</i>	60
6-3-1-1 <i>Hyalinocytes (Agranulocytes)</i>	60
6-3-1-2 <i>Granular cells (Granulocytes)</i>	61
6-3-2- Haemocytes of the gastropod <i>Strombus tricornis</i>	63
6-3-2-1- <i>Hyalinocytes</i>	64
6-3-2-2- <i>Granulocytes</i>	64
6-3-2-3 <i>Amoebocytes</i>	64
6-3-3- Haemocytes of the cephalopod, <i>Sepia officinalis</i>	65
6-3-3-1- <i>Haemocytoplasts</i>	65
6-3-3-2- <i>Primary leucoplasts</i>	65
6-3-3-3- <i>Secondary leucoplasts</i>	66

	Page
6-3-3-4 Mature leucocytes	66
DISCUSSION	68
CHAPTER VII: COMPARATIVE STUDIES OF THE VASCULAR & EXCRETORY SYSTEMS IN THE INVESTIGATED MOLLUSCS	82
RESULTS	
7-1 Renopericardial System of the Bivalve <i>Venerupis aurea</i>	82
7-1-1 Anatomy	82
7-1-2 Histology	84
7-2 The Renopericardial System of the Gastropod, <i>Strombus, tricornis</i> ..	86
7-2-1 Anatomy	86
7-2-2 Histology	89
7-3 Vascular & Excretory Systems of the Cephalopod <i>Sepia</i> <i>officinalis</i>	90
7-3-1 Anatomy	90
7-3-1-1 Vascular system	90
7-3-1-2 Excretory system	91
7-3-2- Histology	93
DISCUSSION	97
CHAPTER VIII: THE EFFECT OF CERTAIN HEAVY METALS ON SOME BIOLOGICAL ASPECTS OF THE CLAM VENERUPIS AUREA	107
RESULTS	
8-1- Clam Mortality as a Function of Heavy Metals Exposure	107
8-2- Effect of Heavy Metals on the Burrowing Activity.....	111
8-3- Effect of Cadmium Exposure on the Haemocytes	114
8-4- Effect of Cadmium Exposure on the Excretory system	114
DISCUSSION	117
CHAPTER IX : SUMMARY AND CONCLUSIONS.....	127
CHAPTER X : REFERENCES	133
ARABIC SUMMARY
