CHAPTER I	
INTRODUCTION	1
1.1 Location, topography and physiography	1
1.2 Accessibility	1
1.3 Aim and scope of the work	4
1.4 Methodology	4
1.5 Synopsis on the basement rocks of Egypt	5
1.6 Previous work on the studied area	14
CHAPTER II	
FIELD GEOLOGY	20
2.1 Introduction	20
2.2 Dokhan volcanics	20
2.3 Hammamat sedimentary rocks	23
2.4 Younger granites	29
2.5 Dykes	30
2.6 Veins and pockets	32
2.7 Structure	33
2.7.1 <i>Primary structures</i>	33
2.7.2 <i>Secondary structures</i>	36
CHAPTER III	
PETROGRAPHY	45
3.1. Dokhan volcanics	45
3.1.1. <i>Intermediate Dokhan volcanics</i>	45
3.1.2. <i>Acidic Dokhan volcanics</i>	47
3.1.3. <i>Pyroclastics</i>	52
3.2. Hammamat sedimentary rocks	53

3.2.1. Conglomerates	53
3.2.2. Greywackes	56
3.2.3. Siltstones	56
3.3. Younger granites	57
3.3.1 Monzogranite.....	57
3.3.2. Syenogranite	65

CHAPTER IV

GEOCHEMISTRY 74

4.1 Introduction	74
4.2 Geochemistry of Dokhan volcanics	74
4.2.1 Chemical variation with D. I. and geochemical behaviour.	81
4.2.2 Geochemical classification	86
4.2.3 Magma type	89
4.2.4 Tectonic setting and petrogenesis	89
4.3 Geochemistry of Hammamat sedimentary rocks	96
4.3.1 Geochemical classification	98
4.3.2 Tectonic setting	101
4.3.3 Provenance (source rocks)	101
4.4 Geochemistry of younger granites	103
4.4.1 Chemical variation with D.I. and petrogenesis	105
4.4.2 Geochemical classification of the studied younger granites.	112
4.4.3 Magma type	112
4.4.4 Tectonic setting	118

CHAPTER V

RADIOACTIVITY 126

5.1 Introduction	126
5.2 Field gamma-ray radiometric survey	128
5.3 Uranium and thorium distributions	131
5.3.1 Dokhan volcanics	132

5.3.2 Hammamat sedimentary rocks	134
5.3.3 Younger granites	134
5.4 Inter - element relationships	137
5.4.1 The U, Th and Th/ U versus D.I. Variation diagrams	137
5.4.2 Relation between U and incompatible elements	137
5.4.3 The U - Fe_2O_3 and U- P_2O_5 variation diagrams	144
5.4.4 The Th - Nb and Th - Zr variation diagrams	144
5.5 Factors controlling U enrichment in the studied syenogranites.	147
SUMMARY AND CONCLUSIONS	148
REFERENCES	157
ARABIC SUMMARY
