INTRODUCTION	1
A) Corrosion behaviour of Iron and Steel in Acid Solutions	5
B) Corrosion Behaviour of Iron and Steel in Alkaline Solutions	9
C) Corrosion Behaviour of Iron and Steel in Neutral Solutions	13
D) Passive Film Formation on Iron and Steel	16
E) Breakdown of Passivity of Iron and Steel	20
F) The Use of Organic Compounds as Corrosion Inhibitors	26
AIM AND SCOPE OF THE PRESENT WORK	35

PART I

VARIATION OF THE OPEN-CIRCUIT POTENTIAL OF IRON AND CARBON STEEL IN H_2SO_4

A) INTRODUCTION	37
B) EXPERIMENTAL	39
C) RESULTS	42
D) DISCUSSION	44
1. Variation of the Open-Circuit Potential of Iron and Steel Electrodes in Oxygen Saturated Solutions of H_2SO_4	44
2. Effect of Carbon Content on the Dissolution of Iron and Steels in H_2SO_4 Solutions	50
3. Effect of Organic Additives on the Dissolution of Iron and Steel in Sulphuric Acid Solutions	51

PART II

STUDIES OF THE VARIABLES AFFECTING THE DISSOLUTION KINETICS OF IRON AND STEEL SAMPLES IN SULPHURIC ACID SOLUTIONS.

A) INTRODUCTION	57
B) EXPERIMENTAL	59
C) RESULTS	62
D) DISCUSSION	65
1. Effect of Acid Concentration on the Kinetics of Iron and Steel Dissolution in H_2SO_4 Solutions	65
2. Effect of Carbon Content on the Kinetics of Iron and Steel Dissolution in H_2SO_4 Solutions ...	72
3. Effect of Addition of Some Organic Compounds on the Corrosion Behaviour of Iron and Carbon Steel	75
4. Effect of Carbon Content on the Inhibition Efficiency of the Organic Additives	81

PART III

CORROSION BEHAVIOUR OF IRON AND CARBON STEEL AS REVEALED FROM CYCLIC VOLTAMMETRY AND POTENTIODYNAMIC POLARIZATION.

A) INTRODUCTION	83
B) EXPERIMENTAL	85
C) RESULTS	87
D) DISCUSSION	90

	page
1. Effect of Sulphuric Acid Concentration on the Cyclic Voltammograms of Iron and Steel Samples	90
2. Effect of Voltage Scanning Rate on the Cyclic Voltammograms of Iron and Steel Samples	97
3. Effect of Carbon Content on the Dissolution of Steel Samples in H_2SO_4 Solutions	99
4. Susceptibility of Steel to Pitting by Chloride Ions	100
5. Effect of Carbon Content on the Pitting Corrosion of Steel	106
6. Influence of Organic Amines on the Anodic Behaviour of Steel in H_2SO_4 Solutions Containing Chloride Ions	107
