

# **CONTENTS**

	<b>Page</b>
<b>ACKNOWLEDGMENTS</b>	<b>I</b>
<b>SYNOPSIS</b>	<b>II</b>
<b>CHAPTER I INTRODUCTION</b>	<b>1</b>
<b>CHAPTER II DECOUPLED RELATIVISTIC DIRAC EQUATION WITH ONE-BOSON-EXCHANGE POTENTIAL</b>	<b>14</b>
2.1 Energy Expectation Value	14
2.2 Wave Functions and Renormalization	17
2.3 Variational and Modified Hartree-Fock Equation	22
2.4 Treatment of Kinetic Term	23
2.5 Relativistic One – Boson – Exchange Potential for Spherical Nuclei	25
<b>CHAPTER III RESULTS AND DISCUSSIONS</b>	<b>44</b>
<b>CHAPTER IV CONCLUSIONS</b>	<b>55</b>
<b>REFERENCES</b>	<b>58</b>
<b>ARABIC SUMMARY</b>	

## ACKNOWLEDGMENTS

The author sincerely acknowledges the kindness of Prof. Dr. H. O. Nafie Professor of Theoretical Physics, Physics Department, Faculty of Science, Benha Branch Zagazig University for sponsoring this thesis, his kind support and encouragement during the work.

Deep appreciation to Prof. Dr. K. M. Hanna, Professor of Theoretical Physics, Mathematics and Theoretical Physics Department, Atomic Energy Authority, Cairo - Egypt, for suggesting the problem investigated in this thesis, for his kind supervision and constant guidance, several illuminating discussions, patience and understanding at all times during the work.

I would like to express my gratitude to both the staff of Physics Department, Faculty of Science, Benha Branch, Zagazig University, and Mathematics and Theoretical Physics Department Nuclear Research Center, Atomic Energy Authority, for the facilities they offered during this work.
