Preface	vi
1 Preliminaries	1
1.1 Introduction	1
1.2 L -topological spaces	1
1.3 L -filters	2
1.4 L -proximity spaces	6
1.5 L -uniform spaces	7
1.6 L -metric spaces	9
2 $GT_{3\frac{1}{2}}$-Spaces and Completely Regular Spaces	11
2.1 Introduction	11
2.2 $GT_{3\frac{1}{2}}$ -spaces	12
2.3 Initial and Final $GT_{3\frac{1}{2}}$ -spaces	20
2.4 The relation between our completely regular spaces and other notions of completely regular spaces	23
2.5 The relation between the $GT_{3\frac{1}{2}}$ -spaces and the L -proximity spaces	26
2.6 The relation between the $GT_{3\frac{1}{2}}$ -spaces and the L -uniform spaces	30
2.7 The relation between the $GT_{3\frac{1}{2}}$ -spaces and the G -compact spaces	35
3 $GT_{2\frac{1}{2}}$-Spaces, GT_5-Spaces and GT_6-Spaces	39
3.1 Introduction	39
3.2 $GT_{2\frac{1}{2}}$ -spaces	40
3.3 Initial and Final $GT_{2\frac{1}{2}}$ -spaces	42
3.4 GT_5 -spaces	45
3.5 Initial and Final GT_5 -spaces	48
3.6 GT_6 -spaces	50
3.7 Initial and Final GT_6 -spaces	54

4	The Uniformizability of L-Topological Groups	57
4.1	Introduction	57
4.2	L -topological groups	58
4.3	L -topological groups and their canonical L -uniform structures	60
4.4	The relation between the L -topological groups and the $GT_{3\frac{1}{2}}$ -spaces	67
5	The Metrizability of L-Topological Groups	69
5.1	Introduction	69
5.2	Some results on L -metric and L -uniform spaces	70
5.3	The metrizability of L -topological groups	72
6	The Completion of L-Topological Groups	75
6.1	Introduction	75
6.2	$\mathcal{U}$ -cauchy filters	76
6.3	The completion of L -uniform spaces	80
6.4	The completion of L -topological groups	82
	References	88
	Arabic Summary
