
The use of some activities and media for improving communication skills at the secondary stage in learning as a foreign language

As a result of the student's deficiency in employing English for communicative purposes some communicative activities and media are seen to be the remedy well designed media and valuable communicative activities can improve communication skills through these aids every student can find a chance to express and satisfy his communicative skills orally .therefore the main concerns of this study were to:

- *identify the most important media and activities by experts in the field of teaching English as a foreign language
- *identify the most desired media and activities as perceived by secondary school students and their teachers
- *design a communicative device through used some available media and activities
- *apply the communicative device on a randomly chosen sample of the first-year, secondary stage
- *estimate the students' achievement before and after conducting the proposed device
