ABOUT US

Benha University stands as one of the leading educational institutions in the Arab Republic of Egypt, with roots dating back to 1911. It is a unique blend of authenticity and modernity, and its buildings and location reflect a rich history that spans the ages. The university's administration is located in the city of Benha, a place steeped in history and once known in ancient times as Athribis.

Located in Qalyubia Governorate, which hosts Benha University, the area serves as a vital link between Cairo and the Nile Delta. This strategic position has made it a meeting point of diverse cultures. The rich heritage of Qalyubia further strengthens the university's standing as a beacon of knowledge and learning.

In 2005, the university branch separated from Zagazig University to become an independent institution known as Benha University, with this building designated as the university's main administrative headquarters.
